Sandhills
COMMUNITY COLLEGE

NC CAREER & COLLEGE PROMISE

The Sandhills Promise

By successfully completing four CCP classes at SCC, the tuition of Moore & Hoke County residents will be paid for two years by choosing to attend SCC!

There are eligibility requirements. Contact Jonathan Garrison at garrisonj@sandhills.edu for all details.

2017-18 Academic Year

Career and College Promise

Program Description

Career and College Promise provides a focused means for students to begin completion of college transfer credits or career training prior to their graduation from high school. Courses under Career and College Promise are offered to high school students with no charge for tuition.

Eligible high school students may earn:

- College credit which is completely transferable to all UNC System Institutions, as well as many private schools and out-of-state universities and colleges.
- College credit toward a credential, certificate or diploma in a technical career.
- A high school diploma and two years of college credit in four to five years through cooperative innovative high schools (Hoke County students only).

College Transfer Pathways	Career and Technical Pathways
High school junior or senior.	High school junior or senior.
Weighted GPA or 3.0 on high school courses.	Weighted GPA or 3.0 on high school courses or have the recommendation of the high school principal or designee.
Demonstrate college readiness on approved assessment (see table below).	

Upon meeting eligibility requirements, students may enroll in a college transfer pathway, a career-technical pathway, or SandHoke Early College (Hoke County students only).

Students may be enrolled in two pathways: two career-technical pathways or, if eligible, students may enroll in a college transfer pathway and career technical pathway during the same semester. Students must maintain a 2.0 grade point average in college courses and continue to make progress toward high school graduation to participate in the program.

College Transfer Pathways

Students may earn college transfer credits toward 32-35 hours of college credit that will transfer to any public North Carolina university as long as a grade of C or better is earned in each course. Credits may also be accepted for transfer by private or out-of-state schools. Courses may be offered on the SCC campus, on one of the high school campuses or online. Not all courses are offered at all of the high schools.

- Associates in Arts Pathway
- Associates in Engineering Pathway
- Associates in Science Pathway

Career Technical Pathways

Students may earn college credits toward a credential, certificate or diploma in a technical career. These pathways allow students to explore potential career areas. Courses may be offered on the SCC campus, on one of the high school campuses or online. Not all courses are offered at all of the high schools. A description of the curriculum standards can be found under the specific program in the Applied Science programs section of the catalog.

Early College Benefits

Students may complete a high-school diploma and an Associate of Arts or Associate of Science in five years or less by successfully completing two years of transferable college credit. High-school and college-level credits are earned at an accelerated rate. Students gain support and preparation for college and university success. A description of the Associate of Arts and Associate of Science curriculum standards can be found in the University Studies program section of the catalog.

College Readiness Benchmarks on Approved Diagnostic Assessment Tests

The following assessment scores qualify students to take courses under one of the college transfer pathways, as well as choose courses from a career technical pathway. Students who do not meet these qualifications may still enroll in courses under a career technical pathway, as long as they meet course prerequisites.

Additionally, students may combine scores from different assessments to meet the required qualifications. For example, qualifying English and reading scores from one assessment may be combined with qualifying math scores from a different assessment, in order to establish college readiness.

	PLAN	PSAT*	PRE ACT	ASSET	ACCU-PLACER	SAT**	ACT
English	15	26	18	41 Writing	86 Sentence Skills	480	18
Reading	18	26	22	41 Reading	80 Reading		22
Mathematics	19	24.5	22	41 Numerical Skills & 41 Int. Algebra	55 Arithmetic & 75 Elem. Algebra	530	22
