FALL SEMESTER 2025

Fly into your future with new classes!

Inside: Workforce Continuing Education | Transfer Programs | Personal Enrichment | BPAC | Gardens

CLASSES & PROGRAMS

In this publication, you will find all Workforce Continuing Education classes, select Curriculum/College Credit programs, as well as Personal Enrichment Classes offered at Sandhills Community College.

Workforce Continuing Education Classes

Workforce Continuing Education classes can usually be completed in a few months and prepare students to earn a state or national credential to secure employment in the field.

Continuing Education Units (CEUs) are also awarded and vary based on class length.

Financial assistance is available for some classes or may be offered at no cost.

To learn more about these classes, call **910.695.3980** or visit the Workforce Continuing Education offices in Stone Hall on the Pinehurst Campus.

Information is also available at www.sandhills.edu/wce.

Registration information can be found on page 2.

Personal Enrichment Classes

To register, go to sandhillscs-register.fundfive.com/course. For questions and more information, call **910.695.3980**. Registration information can be found on page 30.

Curriculum/College Credit Programs

Curriculum classes are for college and university credits. Certificates, diplomas, and associate degrees are awarded to those successfully completing the required classes appropriate for each credential.

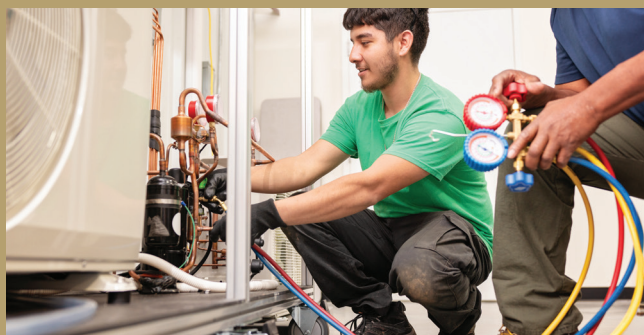

Financial Aid covers all associate degrees and some certificates and diplomas and many scholarships are awarded each year. High school students who successfully complete four or more classes when in high school are eligible to have tuition paid for two years immediately following graduation through **The Sandhills Promise**.

Information about all of our programs can be found at www.sandhills.edu/programs. You can also call **910.695.3725** or visit our Student Services Department in Stone Hall on the Pinehurst Campus.

The first step to registering for classes is to complete an application. All applicants are accepted. Neither SAT nor ACT scores are required. The Apply Now button can be found at the top of our home page at www.sandhills.edu.

ON THE COVER

HVAC

Our HVAC classes offer students the opportunity to gain valuable skills and earn industry-recognized credentials. Students receive instruction from industry professionals who have a lot of real-world knowledge. These courses offer both classroom instruction and hands-on skills that will be needed in the workplace.

Nursing

The Associate Degree Nursing curriculum provides knowledge, skills and strategies to integrate safety and quality into nursing care. Students practice in a dynamic environment to meet individual needs that impact health, quality of life and achievement of potential.

FLYERS CAREER ACADEMY

College and Career Readiness (CCR)

Go to www.sandhills.edu/wce/ccr/index.html to learn more about our Career Academy classes.

Employability Skills Training

- Build communication, teamwork and leadership skills.
- Strengthen your emotional intelligence and resilience to thrive in any role.
- Practice problem solving, decision making and professional adaptability.
- Get exposed to diverse industries and job roles.
- Learn about the skills, education and behaviors required for success.
- Explore workforce trends and identify career opportunities that match your goals.

To register, scan the QR code to the right:

Students with disabilities can contact Susan Williams at **910.695.3809** for support and planning. For additional questions and more information, call **910.695.3926**.

Career Exploration

This course provides participants with insights into diverse career pathways, the skills and education needed for various roles, and the workforce demands in their fields of interest. Through hands-on experiences such as internships and job shadowing, students apply academic knowledge to real-world situations, refine their career goals, and build confidence in making informed decisions about their future. For more information, contact Sara Fusonie at **910.695.3926** or fusonies@sandhills.edu.

Code	Class Day	Dates	Time	Location	Cost
88243	Fridays	Aug. 18–Dec. 12	8–10 am	Pinehurst Campus	\$130/Fee Waived

Career Planning/ Decision Making & Employability Motivation		This course empowers participants to uncover their personal motivations, passions, and natural strengths to align those strengths with meaningful career opportunities. Through tools like PRISM and reflective exercises used in PowerU, students identify their unique behaviors and values, articulate their personal "why," and develop a clear plan to thrive in environments that support their purpose and goals. The second half of the semester will focus on career decision making and employability motivation! For more information, contact Sara Fusonie at 910.695.3926 or fusonies@sandhills.edu .

Course Type	Format	Course Length	Start Dates	Instructor	Cost
Instructor-Moderated Course	Online	6 Weeks	Sept. 17, Oct. 15, Nov. 12	Offered through Ed2go.com	\$154

Automotive Majors

Learn more about our Automotive programs at www.sandhills.edu/programs/transportation or contact Brian Garner at garnerb@sandhills.edu.

Automotive Systems Technology

Associate in Applied Science • Diploma
Automotive Management Certificate • C-Tech Certificate
Light-Duty Diesels and Emerging Technologies Certificate

Automotive Systems Technology prepares individuals to apply technical knowledge and skills to repair, service and maintain all types of automobiles. Includes instruction in brake systems, electrical systems, engine performance, engine repair, suspension and steering, automatic and manual transmissions and drive trains, and heating and air conditioning systems

Collision Repair and Refinishing

Associate in Applied Science • Diploma
Automotive Fabrication Certificate • Non-Structural Repair Certificate
Paint and Refinishing Certificate • Structural Repair Certificate

Collision Repair and Refinishing Technology prepares individuals to apply technical knowledge and skills to repair, reconstruct and finish automobile bodies, fenders, and external features. Includes instruction in structural analysis, damage repair, non-structural analysis, mechanical and electrical components, plastics and adhesives, painting and refinishing techniques, and damage analysis and estimating.

Collision Engineering Technology

Associate in Applied Science

Collision Engineering Technology prepares individuals for employment as entry-level transportation service technicians. The program provides an introduction to transportation industry careers and increases student awareness of the diverse technologies associated with this dynamic and challenging field.

AVIATION

Short-Term Training-Aviation

To register, scan the QR code or visit sandhillsscc-register.fundfive.com/course.

	Flying	Saturdays	Aug. 23–Sept. 6	10 am–2:30 pm		471 Borden Road, Robbins	

Aviation Majors

Learn more about our Aviation program at www.sandhills.edu/programs/transportation or contact Jenny Lowd at lowdj@sandhills.edu.

Aviation Management

Associate in Applied Science in Aviation Management

The Aviation Management major focuses on the skills and knowledge required for aviation related careers including those in general aviation, the aerospace industry and state and federal aviation organizations.

Career Pilot Technology

Associate in Applied Science in Professional Pilot Technology
Instrument Pilot Certificate • Private Pilot Certificate

The Professional Pilot major focuses on the skills and knowledge required to be a successful commercial pilot. Graduates may earn a commercial pilot certificate with an instrument rating.

BUSINESS

Short-Term Training-Business

To register, scan the QR code or visit sandhillscscc-register.fundfive.com/course.
For questions and more information, call 910.695.3980.

Notary Public

This course is required for anyone interested in becoming a Notary Public for the first time. It is recommended for all notaries as a refresher course. Note: The current edition of The Notary Public Manual for North Carolina, March 2016, ISBN: 978-1-56011-851-0, is required for admittance to the class and can be purchased online at the new SCC eCampus. It is strongly recommended that you study the guidebook prior to class attendance to be better prepared for the state examination given at the end of the class. NCGS 10B-5(b) provides the following requirements to be commissioned as a Notary Public in NC:

- 1) Be at least 18 years of age or legally emancipated as defined in Article 35 of Chapter 7B of the General Statutes;
- 2) Reside or have a regular place of work or business in this State;
- 3) Reside legally in the United States;
- 4) Speak, read and write the English language;
- 5) Possess a high school diploma or equivalent;
- 6) Pass the course of instruction described in this Article, unless the person is a licensed member of the North Carolina State Bar;
- 7) Purchase and keep as a reference the most recent manual approved by the Secretary that describes the duties and authority of notaries public;
- 8) Submit an application containing no significant misstatement or omission of fact.

Students must provide current state or federal picture identification for admission to class.
Active-duty military ID or civilian ID cards DO NOT meet the identification requirement.

Course Code	Class Day	Date	Time	Instructor	Location	Cost

Free Small Business Center Seminars

For free one-on-one counseling, information about starting a business, or about specific business needs, contact us at sbc@sandhills.edu.

The Small Business Center Pinehurst Campus	The Small Business Center's mission is to increase the success rate and numbers of viable businesses by providing high quality, readily accessible information and resources to prospective and existing small business owners leading to job creation and retention.
To register, go to www.sandhills.edu/sbc. Additional classes may be added throughout the semester. Check the link often.	

Small Business Startup Series	This core series will be presented by experts in their respective fields and introduces many aspects of starting, marketing, and sustaining a small business. If you are an entrepreneur, prospective or existing small business owner, consider immersing yourself in this entire series.
--------------------------------------	--

Start Your Business	Learn how to create actionable, relevant, and sustainable business practices. Discover resources to craft a business strategy that targets specific, measurable, and timely goals to attract investors, lenders, and customers and supports a profitable small business model.			
Class Days	Dates	Time	Instructor	Location
Monday	Aug. 18	1–3 pm	Michael Molloyhan	Hoke Center
Tuesday	Aug. 19	6–8 pm	Michael Barbera	Pinehurst Campus

Google & Social Media Marketing	Learn how to create a free Google My Business profile and how to engage with customers; improve your website's visibility in Google's organic search results; implement simple best practices for content marketing, social media marketing and marketing; and advertise your business through Google via Smart Campaigns. Attendees will walk away with free tools, a proven plan, and messaging strategies they can implement in their marketing immediately—no matter their level of marketing "know-how" or expertise.			
Class Day	Date	Time	Instructor	Location
Thursday	Aug. 21	6–8 pm	Joseph White	Pinehurst Campus

Starting an E-Commerce Business	We will explore the features of well-known e-commerce sites such as an eBay Store, Shopify website, Amazon.com, and Etsy as well as creating your own website as an online store. One way to expand your small business is to sell products online. Developing a revenue stream from online sales is an easy way for small businesses to increase their profits. Learn what sites work best to sell your product or service.			
Class Days	Dates	Time	Instructor	Location
Monday	Aug. 25	1–3 pm	Cynthia Ellis	Hoke Center
Tuesday	Aug. 26	6–8 pm		Pinehurst Campus

Business Structures & Registration	Learn about the various types of business structures and the advantages and disadvantages of each. Discover how to register with the NC Secretary of State, the IRS, and NC Department of Revenue.			
Class Days	Dates	Time	Instructor	Location
Tuesday	Sept. 2	6–8 pm	Michael Molloyhan	Pinehurst Campus
Monday	Sept. 8	1–3 pm		Hoke Center

Website Design & Maintenance	This seminar provides step-by-step guidance for building and maintaining a professional website that attracts the right customers. You will receive valuable information about basic image manipulation, how to select and secure your domain name, how to choose a graphics theme, and how to generate maximum exposure in Google, Yahoo, and Bing. You will learn about content management systems like WordPress, and you will also receive a list of recommended themes, plug-ins and widgets that allow you to customize and enhance your website.			
Class Day	Date	Time	Instructor	Location
Thursday	Sept. 4	6–8 pm	Joseph White	Pinehurst Campus
Business Tax Essentials	Learn the basic requirements to help NC small business owners understand the laws and obligations necessary to be tax compliant. Learn about filing and administrative requirements. Learn the basics of NC sales, use tax law, and withhold tax law. Trademarking	This presentation covers the essentials of trademarking, including why trademarks are important for protecting a brand's identity and how they help build trust and differentiation in the market. It provides an overview of the different types of trademarks, explains the application process step-by-step, and highlights common pitfalls to avoid. Additionally, it discusses international considerations for trademarking and tips for maintaining and enforcing trademark rights, ensuring a brand remains unique and legally safeguarded.	Date	Time	Instructor
		Aug. 20	6–8 pm	Te'Aira Melvin

Protecting Your Business & Brand	In today's competitive market, protecting a business's identity and reputation is crucial for long-term success. This presentation provides a comprehensive guide on strategies business owners can use to safeguard their business and brand. Covering legal protections such as trademarks, copyrights, and patents, we'll explore key contracts, cyber security best practices, and the importance of consistent branding and reputation management. Real life case studies will illustrate the benefits of robust brand protection, while actionable steps will empower you to begin securing your brand today. Join us to learn how these proactive measures can enhance your business's resilience and market position.	Date	Time	Instructor
		April 8	6–8 pm	Te'Aira Melvin

Employing Your Children in Your Business: A Guide for Parents	This presentation, titled "Employing Your Children in Your Business: A Guide for Parents," provides an overview of the advantages and guidelines for legally hiring your children in a family business. It covers key benefits like tax savings, skill development, and succession planning, along with essential legal requirements such as age restrictions, work hour limits, fair wages, and record keeping. The presentation also outlines practical steps for assigning age-appropriate tasks, managing payroll, and avoiding common pitfalls. Lastly, it offers insights into long-term planning to prepare children for possible future leadership, making this a valuable guide for family-owned businesses looking to responsibly integrate the next generation.	Date	Time	Instructor
		Sept. 3	6–8 pm	Te'Aira Melvin

How to Pay Yourself as a Small Business Owner	This presentation, "How to Pay Yourself as a Small Business Owner," provides a practical guide for small business owners on structuring their compensation. It covers key factors to consider before paying yourself, different pay methods (such as owner's draws and salaries), and how to determine a fair and sustainable amount. It also delves into tax responsibilities, legal compliance, and best practices for balancing personal income with reinvesting in the business. Attendees will have a clearer understanding of how to responsibly and strategically pay themselves while ensuring their business remains financially healthy.	Date	Time	Instructor
		Sept. 10	6–8 pm	Te'Aira Melvin

Creating a Winning Business Plan	You can't reach your goal—or get a loan—without the map that is your business plan. Creating a Winning Business Plan offers simple, easy to follow steps for creating a business plan that fits your small business.	Date	Time	Instructor
		Oct. 16	2–3 pm & 6:30–7:30 pm	Mike Collins

Finding Your Customer & Creating a Marketing Plan	Just because you have an idea doesn't mean anyone will buy it. Learn the four ways to describe your customer and sources to find out how many there are in your market area. This program also features five ways to create a winning plan to target them.	Date	Time	Instructor
		Sept. 25	6–8 pm	Mike Collins

How to Find Contracts & Grants for Small Businesses	This presentation, "How to Find Contracts and Grants for Small Businesses," offers a comprehensive guide for entrepreneurs seeking funding and growth opportunities. It covers essential topics such as understanding contracts and grants, researching available opportunities, and navigating the application process. Attendees will learn how to identify the right opportunities, prepare compelling applications, and manage awarded contracts or grants effectively. The presentation also addresses common challenges, provides actionable solutions, and highlights valuable resources like Small Business Development Centers and mentorship programs. By the end, participants will have a clear road map to secure funding and build lasting partnerships to support their business growth.	Date	Time	Instructor
		Sept. 17	6–8 pm	Te'Aira Melvin

Health Care Majors

Learn more about our Health Care programs at www.sandhills.edu/programs/all-programs.html or contact the coordinator indicated on the program webpage.

Emergency Medical Science

Associate in Applied Science • Diploma
Advanced EMT Certificate • EMS Bridging

The Emergency Medical Science curriculum provides individuals with the knowledge, skills and attributes to provide advanced emergency medical care as a paramedic for critical and emergent patients who access the emergency medical system and prepares graduates to enter the workforce.

Health and Fitness Science

Associate in Applied Science • Certificate

The Health and Fitness Science curriculum is designed to provide students with the knowledge and skills necessary for employment in the fitness and exercise industry.

Medical Laboratory Technology

Associate in Applied Science

The Medical Laboratory Technology curriculum prepares individuals to perform clinical laboratory procedures in chemistry, hematology, microbiology, and immunohematology that may be used in the maintenance of health and diagnosis/treatment of disease.

Nurse Aide

Certificate

The Nurse Aide curriculum prepares individuals to work under the supervision of a licensed Registered Nurse (RN) in performing nursing care and services for persons of all ages.

Nursing

Associate Degree in Nursing • Associate in General Education Nursing

The Associate Degree Nursing (ADN) curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Radiography

Associate in Applied Science • Computed Tomography Imaging Certificate

The Radiography curriculum prepares the graduate to be a radiographer, a skilled health care professional who uses radiation to produce images of the human body.

Respiratory Therapy

Associate in Applied Science

The Respiratory Therapy Curriculum prepares individuals to function as respiratory therapists. In these roles, individuals perform diagnostic testing, treatments, and management of patients with heart and lung diseases.

Surgical Technology

Associate in Applied Science • Diploma

The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Therapeutic Massage

Associate in Applied Science • Diploma

The Therapeutic Massage Curriculum prepares graduates to work in direct client care settings to provide manipulation, methodical pressure, friction and kneading of the body for maintaining wellness or treating alterations in wellness throughout the lifespan.

IT CREDENTIALS AND CYBER SECURITY

CompTIA A+ Certification Prep		<p><i>Our CompTIA IT Credentials and Cyber Security track of three certification preparation courses (A+, Network+, and Security+) can be taken in any order.</i></p> <p>CompTIA A+ is the industry standard for establishing a career in IT and the preferred qualifying credential for technical support and operational roles. Learn to troubleshoot and problem solve, better understand a wide variety of issues ranging from networking and operating systems to mobile devices and security, and build the skills and knowledge to advance from A+ to Network+ to Security+, allowing the student to complete the entire track and obtain all credentials. Each course counts toward DoD 8570 Information Assurance qualifications. Scholarships are available for this course. CEU: 12.6</p>			
-------------------------------	--	---	--	--	--

Code	Format	Class Days	Dates	Time	Instructor	Cost
87868	Online	Tuesdays, Wednesdays, Thursdays	Sept. 2–Dec. 17 <i>No class Sept. 11, Oct. 14, Nov. 11, 26 & 27</i>	6–9 pm	Billy Barber	\$197.50 + courseware (\$307)

CompTIA Network+ Certification Prep		<p><i>Second class in the series of CompTIA IT Credentials and Cyber security track of three certification preparation courses. .</i></p> <p>CompTIA Network+ helps develop a career in IT infrastructure covering troubleshooting, configuring, and managing networks. You will learn to design and implement functional networks; configure, manage, and maintain essential network devices; implement network security, standards, and protocols; troubleshoot network problems; and support the creation of virtualized networks. This course is a continuation of the IT Credentials and Cyber security track for the students who complete the A+ Certification course or those who already hold A+ Certification or have equivalent knowledge and experience. Scholarships are available for this course. CEU: 13.2</p>				Will be offered Spring 2026
-------------------------------------	--	---	--	--	--	-----------------------------

CompTIA Security+ Certification Prep		<p><i>Our CompTIA IT Credentials and Cyber Security track of three certification preparation courses (A+, Network+, and Security+) can be taken in any order.</i></p> <p>CompTIA Security+ is a global certification that validates the baseline skills necessary to perform core security functions and pursue an IT security career. The new CompTIA Security+ (SY0-701) represents the latest and greatest in cyber security, covering the most in-demand skills related to current threats, automation, zero trust, IoT, risk – and more. Once certified, you'll understand the core skills needed to succeed on the job – and employers will notice, too. The Security+ exam verifies you have the knowledge and skills to assess the security posture of an enterprise environment, recommend and implement appropriate security solutions, and monitor and secure hybrid environments, including cloud, mobile, Internet of Things (IoT), and operational technology. You will also demonstrate the ability to operate with an awareness of applicable regulations and policies, including principles of governance, risk, and compliance, and identify, analyze, and respond to security events and incidents. CompTIA Security+ is compliant with ISO 17024 standards and approved by the U.S. DoD to meet directive 8140/8570.01-M requirements. Scholarships are available for this course. CEU: 12.6</p>				Will be offered Summer 2026

Computer Majors

Learn more about our Computer programs at www.sandhills.edu/programs/all-programs.html or contact Matt Sheffield at sheffieldm@sandhills.edu.

Computer Engineering

Associate in Applied Science-CET Hardware & Software Support
Associate in Applied Science-CET Medical Equipment Support
Associate in Applied Science-CET Networking
Associate in Applied Science-CET Security
CET Generalist Certificate • CET Networking Certificate
CET Support Professional Certificate • CET Security Certificate
CET Hardware & Software Support Certificate

This program prepares the students to use basic engineering principles and technical skills for installing, servicing and maintaining computers, peripherals, networks, and microprocessor and computer controlled equipment. Includes instruction in mathematics, computer electronics and programming, prototype development and testing, systems installation and testing, solid state and microminiature circuitry, peripheral equipment, and report preparation.

Information Technology

Associate in Applied Science-IT Computer Programming and Development
IT-Computer Database Certificate • IT-Generalist Certificate IT-Programming C#
Certificate • IT-Apple Swift Programming Certificate

The Information Technology (IT) curriculum prepares graduates for employment in the technology sector as designers, testers, support technicians, system administrators, developers, or programmers who use computer software and/or hardware to design, process, implement and manage information systems in specialties such as database services, security, business intelligence, healthcare informatics and others depending on the technical path selected within this curriculum.

Oil Painting I: Foundation

Learn the timeless art of oil painting from the ground up. This 8 week course introduces beginners and returning artists to essential skills, including drawing for painting, surface preparation, color mixing, and brush handling. Students will complete foundational exercises and small studies while developing confidence in traditional oil techniques. Students learn the essential tools, materials, and methods that artists have used for centuries—no experience required. Come discover the magic of brush, color, and canvas in a warm, supportive environment. Day one, session one: Students should bring drawing supplies and a reference photo for their final project. CEU: 1.4

Code	Class Days	Dates	Time	Instructor	Location	Cost
88294	Thursdays	Aug. 21-Oct. 2	1-3 pm	Wilder Rich	Pinehurst Campus	\$130

Oil Painting II: Finish

Continue your oil painting journey with a deeper focus on composition, color harmony, and personal expression. In this 8-week course, students apply core techniques to create completed works from start to finish. Emphasis is placed on developing an individual style while refining technical skills. The student will move from exercises to full compositions—learning how to plan, layer, and refine your work like a pro. Bring compositions to life and complete paintings to be proud to frame. CEU: 2.4

Code	Class Days	Dates	Time	Instructor	Location	Cost
88295	Thursdays	Oct. 16–Dec. 11 <i>No class 11/27</i>	1–4 pm	Wilder Rich	Pinehurst Campus	\$225

Memoir Writing: Exploring Your Story

Attendees will learn basic techniques, structure and tips of memoir writing. The students will examine characteristics of memoir, including examples of various forms such as literary memoir, historical memoir, travel, transformative or spiritual. Memoirs can be creative nonfiction, narrative, poetry, letters, or interviews such as StoryCorps. Attendees will consider reasons for writing a memoir; and will be inspired and encouraged (but not required) to write a piece of memoir and share progress with the course. CEU: 0.6

Sculpting Ceramic Face Masks

Discover the fundamentals of sculpting the human face by creating your own expressive ceramic mask. Starting with a simple lump of clay and a few tools, you'll learn essential techniques in proportion, form, and facial detailing as you hand-build a portrait from clay slabs. Guided by an experienced instructor, this creative, hands-on workshop is perfect for all skill levels. Your finished piece will be kiln-fired and ready to hang as a one-of-a-kind work of art. Supplies are included—just bring your imagination and get ready to create! CEU: 0.4

Code	Class Day	Date	Time	Instructor	Location	Cost
88306	Friday	Sept. 5	1–5 pm	Paul Haigh	Pinehurst Campus	\$75

Anatomy Head Sculpting

In this hands-on workshop, sculptor Luke Huling will walk you through the basics of figure sculpting. He will discuss the foundational skills of anatomy, and students will make their own half life-sized head out of clay. While students are free to sculpt whom-ever they like, an emphasis will be placed on using the student as a reference and mirrors will be provided to use. At the end of the workshop, the student's piece will be collected, fired and available for pick up in 1 to 2 weeks. CEU: 0.3

Code	Class Day	Date	Time	Instructor	Location	Cost
88307	Friday	Oct. 3	1–4 pm	Luke Huling	Pinehurst Campus	\$75

Make Your Own Mug

Learn the basics of hand-building pottery by creating your very own clay mug! In this fun, hands-on workshop, students shape, assemble, and personalize a functional mug with guidance from our skilled instructor. They also get to decorate it with special clay paints before glazing and kiln-firing the finished piece to make it food-safe. No experience necessary—just bring creativity! Supplies are included, and the one-of-a-kind mug will be ready for pickup in 1–2 weeks. CEU: 0.3

Bridges of Faith: An Interfaith Dialogue

Join us for a moderated interfaith gathering organized by members of the Jewish, Christian and Muslim communities. This event is an opportunity to come together in a spirit of mutual respect and understanding. Panelists representing the Jewish, Christian and Muslim faiths will present their precepts in a lively format moderated by Jason Howk, noted author and speaker. Through conversation, shared values and personal stories, we aim to build bridges across our faith traditions and celebrate the rich diversity within our local communities. All are welcome—regardless of background—to listen, learn and connect. Audience participation will be encouraged. Let's come together to foster understanding, respect, and collegiality. CEU: 0.3

LANGUAGES

French Beginning Conversation

This course will provide the foundation to asking and responding to simple questions using basic vocabulary. Engage in easy conversations and communicate in social, business and travel situations. Students will study a variety of basic written materials and master writing simple sentences needed in everyday life. CEU: 1.8

Code	Class Days	Dates	Time	Instructor	Location	Cost
88337	Mondays & Wednesdays	Sept. 3–Oct. 1	6–8 pm	Carole Hill	Pinehurst Campus	\$75+ Text

French II Conversation

Prerequisite: French I or Beginning French Conversation or prior experience.
As a continuation of French Beginning Conversation, this course focuses on the fundamental elements of the French language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, you will comprehend and respond with increasing proficiency to spoken and written French and manifest further cultural awareness. Same text as French I. CEU: 1.8

Code	Class Days	Dates	Time	Instructor	Location	Cost
88338	Mondays & Wednesdays	Oct. 20–Nov. 17	6–8 pm	Carole Hill	Pinehurst Campus	\$75+ Text

Spanish Beginning Conversation

Immerse yourself in the vibrant world of Spanish with this engaging beginner's course. Build a strong foundation by learning how to ask and respond to simple questions using essential vocabulary. You'll practice easy conversations that are perfect for social, business, and travel situations. Through a mix of interactive speaking exercises and basic written materials, you'll master writing simple sentences for everyday use. Plus, explore the rich culture behind the language as you embark on your Spanish-speaking journey. CEU: 1.8

Code	Class Days	Dates	Time	Instructor	Location	Cost
88342	Tuesdays & Thursdays	Oct. 21–Nov. 20 <i>No class Nov. 11</i>	2–4 pm	Arantxa Morillo	Pinehurst Campus	\$75+ Text

Spanish II Conversation

Prerequisite: Spanish I Beginning Conversation or prior experience.
Continue your Spanish-speaking journey with this dynamic and practical follow-up to Beginning Spanish. In this course, you'll expand your vocabulary and build fluency through real-life topics such as weather, travel, transportation, nationalities, and outdoor activities. Strengthen your ability to ask and answer questions, use essential verbs, and hold simple conversations. Each lesson combines speaking practice, listening comprehension, and cultural insights to help you communicate with more confidence in everyday situations. CEU: 1.8

Public Safety Majors

Learn more about our Public Safety programs at sandhills.edu/programs/all-programs.html or contact the coordinator indicated on each web page.

BLET	Certificate
Basic Law Enforcement Training (BLET) is designed to give you the essential skills required for entry-level employment as law enforcement officers with state, county or municipal governments, or with private enterprise.	
Criminal Justice	Associate in Applied Science • Certificate Associate in Applied Science Forensic Science • Forensic Science Certificate
The Criminal Justice Technology Curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial processes, corrections, and security services. The criminal justice system's role within society is explored. Forensic Science is a concentration under the curriculum of Criminal Justice Technology, which focuses on the application of the physical, biomedical, and social sciences to the analysis and evaluation of physical evidence, human testimony and criminal suspects. Study will focus on local, state, and federal law enforcement, evidence processing and procedures.	
Fire Protection	Associate in Applied Science Fire Inspection Certificate • Fire Management Certificate
The Fire Protection Technology curriculum is designed to provide students with knowledge and skills in the technical, managerial, and leadership areas necessary for advancement within the fire protection community and related firefighting industries, and to provide currently employed firefighters with knowledge and skills often required for promotional consideration.	

UNIVERSITY STUDIES
