

FunFest 2025 Egg Drop Competition Rules Middle School and High School

Objective: Students will use only materials given to them to construct a vehicle, which will protect a raw egg when dropped from different heights onto a concrete surface.

Entries and Judging

Participants: 5 teams per school, with 2 members per team. Team members must be present for building and testing at FunFest.

Submission: No prior submission is required. Students must sign up for this event with MCS by the deadline. All construction will occur at FunFest.

SCC Judges: Paul Steel, Professor/Coordinator, Computer Engineering Technology, Coordinator, Hardware and Software Support, and Coordinator, Medical Equipment Support, and **Rick Hooker**, Professor/Coordinator, Networking and Security

Judging Location: Build at 9:30 am in Little Hall Rooms 214 and 222, the drop will take place outside in designated location. See FunFest Map.

Notes: None.

Determining the winner: The winner will be determined based on the greatest height drop without egg breakage.

Rules Revised/Checked: 07/15/24

Competition Rules

Students will use only the materials given to them at FunFest to construct a vehicle, which will protect a raw egg when dropped from different heights onto a solid surface.

Materials List

Materials will be provided at the event. Materials may change from year to year. Materials may include the following:

- 2 sheets of 8 ½ inch x 11 inch paper
- 2 feet of kite string
- 1 foot of masking tape
- 5 small drinking straws
- 1. Tape is a connecting device. Tape is used to connect materials together, a hinge, or a latch. Tape cannot be used to reinforce the strength of the egg. Tape cannot be wrapped around the egg.
- 2. All vehicles must be built on site using only materials and tools provided by the administrator of the contest.
- 3. Tools provided are 12 inch ruler, scissors, and pencil.
- 4. The egg will be inspected after each drop. **The egg must be visible for inspection between drops.** When the egg is broken or cracked (major burst or hairline crack) the last level the egg successfully completed will be recorded for competition.
- 5. If egg slips out of vehicle and breaks, the last level the egg successfully completed will be recorded for competition.
- 6. The time allotted for completion of the task is twenty minutes.
- 7. In case of a tie, oral questions will decide the tie breaker.
- 8. Students must stay on site during build and drop. Students must be present at the drop until their egg breaks.
- Students must be on time to participate in build. Late arrivals do not get extra time on build.
- 10. Be Creative!
