Credits completed at Methodist U: 64-65

Methodist University' Bachelor of Science (B.S.) in Engineering is accredited by the Engineering Accreditation Commission of ABET (abet.org). Students will earn a B.S. in engineering with a concentration in Industrial & Systems Engineering while also gaining a strong liberal arts foundation. The Engineering Program's goal is for each student to have their own real-world experience by participating in enrichment activities such as hands-on learning, service-learning projects, and internships while gaining knowledge in the sciences, math, and engineering, as well as the liberal arts. As a result, graduates will become well-rounded, sought-after engineers by both traditional and non-traditional engineering employers. Learn more at
