AUTO CUSTOM FABRICATION

AUC-112 Auto Custom Fabrication 4 (2-4) Fall

Prerequisites:

Corequisites:

This course covers modifications of existing vehicle components, as well as fabrication of new vehicle components. Emphasis is placed on basic customizing techniques used on factory original parts, as well as fabrication of custom components using machining processes and customizing techniques. Upon completion, students should be able to modify existing factory components and create custom-fabricated components using auto customizing techniques. (2006 FA)
