CLASSES & PROGRAMS

In this publication, you will find all Workforce Continuing Education classes and Curriculum/College Credit programs offered at Sandhills Community College.

Workforce Continuing Education Classes

Workforce Continuing Education classes are indicated in blue.

Workforce Continuing Education classes can usually be completed in a few months and prepare students to earn a state or national credential to secure employment in the field.

Continuing Education Units (CEUs) are also awarded and vary based on class length.

Financial assistance is available for most classes and some are even offered at no cost.

To learn more about these classes, call 910.695.3980 or visit the Workforce Continuing Education offices in Stone Hall on the Pinehurst Campus. Information is also available at www.sandhills.edu/wce.

Registration information can be found on page 2.

Curriculum/College Credit Programs

Curriculum/College Credit programs are indicated in green.

Curriculum classes are for college and university credits. Certificates, diplomas and associate degrees are awarded to those successfully completing the required classes appropriate for each credential.

Students must be at least 16-years-old to take Curriculum/College Credit classes.

Financial assistance is offered for most programs and many scholarships are awarded each year. High school students who successfully complete four or more classes when in high school are eligible to have tuition paid for two years immediately following graduation through "The Sandhills Promise" program.

Information about all of our programs can be found at www.sandhills.edu/programs. You can also call 910.695.3725 or visit our Student Services Department in Stone Hall on the Pinehurst Campus.

The first step to registering for classes is to complete an application. All applicants are accepted, neither SAT nor ACT scores are required. The Apply Now button can be found at the top of our home page at www.sandhills.edu.

FINANCIAL ASSISTANCE

The SCC Foundation provides money for Workforce Continuing Education classes, books, and fees. The Governor's Emergency Education Relief (GEER) Scholarship Program provides funds as does the Golden Leaf Foundation and six other programs.

See www.sandhills.edu/scholarships.

Financial assistance is available for degree-seeking curriculum students in qualified programs through grants, scholarships, alternative (not federal) loans, and work-study employment.

See www.sandhills.edu/financialaid for information.

BOYS & GIRLS CLUB

AFTERNOON AND EVENING PROGRAMS OFFERED ON THE PINEHURST CAMPUS

After School Club

2:30 to 6:30 pm

Kindergarten Through Fifth Grade
\$50 per child per year.

Transportation from McDeeds Creek,
Carthage, and Farm Life Elementary
Schools is currently available.

Drop-In Club

6-9 pm

Free

Dinner Provided

For all information and registration,
go to www.sandhillsbgc.org.

Registration Process for Workforce Continuing Education Classes

We've streamlined the process to give you an even better experience!

Sandhills Community College Workforce Continuing Education now has online registration. Scan the QR code or visit sandhillsscc-register.fundfive.com/course to register **AND** pay for classes.

Workforce Continuing Education classes are indicated in blue.
For questions, please call (910) 695-3980.

Registration for College For Kids will open on April 15.

To register, scan the QR code or visit sandhills.edu/camps.

For questions and more information, call 910.695.3980.

Life on a Farm Camp

This camp offers an exciting opportunity for students to gain insight into the inner workings of small farms. Each day, campers will explore a farm featuring various animals and agriculture to engage in hands-on activities with different farm animals as well as produce, vegetables, and flowers. The daily schedule includes enjoyable experiences that stimulate creativity, foster teamwork, and enhance confidence. Campers are responsible for their own transportation to and from the local farms each day of camp.
A detailed schedule of farms will be provided closer to the start date.

Code	Ages	Class Day	Dates	Time	Instructor	Location	Cost
87108	8-14	Monday-Thursday	June 16-19	8:30 am-12:30 pm	Dr. Patricia Lyons & Local Hoke Farm Friends	Hoke County Farms	\$160
87128			July 21-24		Kelly McCaskill & Local Moore Farm Friends	Moore County Farms	
87129			July 28-31		Kelly McCaskill & Local Farm Friends		

Camp, Cook, Play!

Get ready for a summer of fun, food, and fitness! Kids will dive into hands-on food adventures, explore healthy eating with MyPlate, and stay active with exciting games. Campers will learn kitchen skills, food safety, and how to make smart food choices—all while having a blast with new friends. This half-day camp is packed with interactive activities designed to spark curiosity, build confidence, and inspire lifelong healthy habits. Come cook, play, and learn with us this summer!

Code	Ages	Class Day	Dates	Time	Instructor	Location	Cost
87130	8-14	Monday-Wednesday	June 16-18	1:30-4:30 pm	Shirly Smith, FCS Agent, and Tamika McLean, EFNEP Educator, of the Hoke County Extension.	Hoke Center	\$98
87131		Monday-Thursday	June 23-26				\$128
87132			July 14-17				

VR Voyage: Moore Tech Adventures

Strap on your headset and get ready for an epic four-day journey through virtual worlds! Walk on Mars, step into the Roman Colosseum, or choose your own adventure experience. Test your skills with virtual golf, tackle mind-bending challenges, and work as a team on challenges to test your creativity with problem-solving tasks with cutting-edge VR gear and expert guidance (including non-VR activities to actively manage screen time), this camp is packed with excitement, exploration, and hands-on fun. The only limit? Your imagination!

Code	Ages	Class Day	Dates	Time	Instructor	Location	Cost
87133	8-14	Monday-Thursday	June 16-19	8:30 am-12:30 pm	Serge Glushenko & Lauren Hunt	Pinehurst Campus	\$150
87134			June 16-19	1-5 pm			

Let's Get Our Hands Dirty!

This camp is designed to create meaningful and memorable experiences that teach scientific creativity. Our activities are hands-on, fun, and engaging. Discover new things daily with our interesting, exciting camp themes, including Saponification (The art of making Soap), Vermicomposting (Composting with worms), Be Naturally Beautiful (Making homemade beauty products), and Healthy soil and gardening. This is a camp you do not want to miss out on!

Code	Ages	Class Day	Dates	Time	Instructor	Location	Cost
87135	8-14	Monday-Thursday	June 23-26	9 am-12:30 pm	Dr. Patricia Lyons	Hoke Center	\$128

Small Business Entrepreneurship Camp

Ignite your child's confidence and entrepreneurial spirit at our dynamic camp! Guided by experienced business leaders, campers will transform their interests into a mock business venture. This immersive experience is designed to be fun, interactive, and informative, presenting youths with diverse career possibilities in today's marketplace. Throughout the camp, participants collaborate in small groups to develop a business idea to present to a panel of judges on day four in a competition, fostering teamwork and creative thinking. Winners will receive exciting rewards, adding an extra layer of motivation to this empowering journey.

Code	Ages	Class Day	Dates	Time	Instructor	Location	Cost
87136	8-14	Monday-Thursday	June 23-26	8:30 am-12:30 pm	Megan Barnett & Local Business Leaders	Pinehurst Campus	\$140

Healthy Habits Summer Camp: Nutrition, Meal Creation, & Active Living

This camp offers an exciting and interactive experience for students eager to learn about nutrition, meal preparation, and staying active. Through hands-on activities, kitchen skills workshops, and fun physical challenges, campers will discover the importance of healthy eating, food safety, and making nutritious choices. They'll gain practical skills to create delicious, balanced meals, explore the benefits of fruits and vegetables, and incorporate daily physical activity into their lives. Join us for a summer of learning, creativity, and well-being!

Code	Ages	Class Day	Dates	Time	Instructor	Location	Cost
87138	8-14	Monday-Thursday	June 23-26	1-5 pm	Emerson Williams	Pinehurst Campus	\$128

STEAM Max Camps

STEAM Max Camp allows campers to explore the fields of science, technology, engineering, visual arts, culinary arts, and math through fun, engaging activities. Campers rotate through five sessions each day, creating their own video games, completing engineering challenges using math and science concepts, learning creative tricks in the culinary arts kitchen, coding robots, and using problem-solving skills to tackle real-world challenges. Two weeks to choose between. (Cost includes a T-shirt, snacks, and drinks. Campers must bring lunch and are encouraged to bring a refillable water bottle.)

Code	Ages	Class Day	Dates	Time	Instructor	Location	Cost
87139	8-14	Monday-Thursday	July 7-10	8 am- 3:30 pm	Tyler Callahan with STEAM Specialists	Pinehurst Campus	\$275
87140			July 14-17				

Fishing Camp

Campers will learn fishing fundamentals, such as safe and proper casting techniques, baiting a hook with worms or crickets, and basic knots for tying on hooks and lures. Campers will also learn some universally effective techniques to help them catch fish in just about any local body of water. This is a great camp for anglers who have never fished, or who wish to become self-sufficient on the water.

Code	Ages	Class Day	Dates	Time	Instructor	Location	Cost
87141	11-14	Monday-Thursday	July 21-24	8:30 am-12:30 pm	Will Allred	Pinehurst Campus	\$135

Jr. Chef Culinary Camp

Calling all young food lovers! Join us for a week of hands-on cooking, baking, and food exploration. Guided by experienced chefs, campers will learn essential kitchen skills, from proper knife techniques to food safety and cleanliness—all while creating delicious dishes from around the world. Each day features a new culinary theme, from crispy American classics to flavorful Asian and Latin-inspired favorites. We'll even harvest fresh ingredients from our culinary garden! No experience needed—just a passion for cooking and a hunger to learn. By the end of the week, your Jr. Chef will have the confidence to recreate their favorite camp dishes at home. Closed-toed shoes and an apron or smock are required. Dietary restrictions will be addressed during registration. Sign up today, and let's get cooking!

Code	Ages	Class Day	Dates	Time	Instructor	Location	Cost
87142	10-14	Monday-Thursday	July 21-24	1-5 pm	Chef Felicia Everts	Pinehurst Campus	\$160
87143			July 28-31				
87144			Aug. 4-7	8:30 am-12:30 pm			

Coding & 3D Printing Bootcamp		Come create with us! Through our 3D Printing, Design, and Coding Bootcamp, we will encourage students to develop their creativity and problem-solving skills. Using Sphero robots, instructors will demonstrate how to program a robot using Sphero Edu. Students will build on this strong foundation and be introduced to Tinkercad, an online design tool through which they can practice their 3D creation skills. After completing their projects, students take home a piece of their own creation.

87169	11-14	Monday-Thursday	July 28-31	8:30 am-12:30 pm	Will Allred	Pinehurst Campus	\$135

Learn to Make T-Shirt Quilt Camp		If you have T-shirts you love but no longer wear, a T-shirt quilt is the perfect thing to learn to make. Learn the steps to make a memory quilt for yourself or as a gift. Sewing or quilting experience is not required. Campers will need to bring several clean T-shirts and a working sewing machine. After designing and creating the quilt top, campers will apply backing and batting, encase, and tie to finish the quilt. Campers will need to bring several clean T-shirts, backing material (will be discussed at 1st day of camp) and a working sewing machine.

PRECOLLEGE

College and Career Readiness (CCR)

Go to www.sandhills.edu/wce/ccr/index.html to learn more about our CCR classes.

CCR Orientation

Orientation is available for both Moore and Hoke counties. Students with a valid score on assessment will be placed according to level. Contact us to reserve your seat for the next orientation at www.sandhills.edu/wce/ccr/index.html or (910) 693-2070.

Free

Adult Basic Education (ABE)

Classes for the beginning and intermediate adult learners to help improve reading, writing, math, spelling, and language skills to fulfill educational and/or vocational goals. Various instructional methods and schedules available to meet all students' needs. For information, contact Rebecca Kimbrell at (910) 695-3779 or kimbrellr@sandhills.edu.

Free

Class Days	Time	Location
Mondays-Thursdays	8 am-2 pm	Van Dusen Hall, Pinehurst Campus
Mondays-Thursdays	8 am-2 pm	Upchurch Hall, Hoke Center

US Citizenship Preparation

Prepare for the United States citizenship process. Learn the 100 civic questions, US History and Government, how to fill out the N-400, and complete a practice naturalization interview. Must be 18 years of age or older and an English Language Learner. Hybrid course offered online with weekly face-to-face class sessions. For information, contact Isabel Cain at (910) 246-4975 or cainm@sandhills.edu.

Cost

Free

Location

Moore &
Hoke

High School Equivalency Diploma (HSE)

Designed for adults who did not complete a high school education or who wish to strengthen their skills before pursuing post-secondary education or employment. Sandhills Community College currently offers official GED® and HiSET® testing services. Various instructional methods available to meet all students' needs. For more information, contact Pinehurst Campus Beckie Kimbrell at kimbrellb@sandhills.edu or 910-695-3779 or for Hoke campus Delia Burnett at burnetttd@sandhills.edu or 910-848-4300.

Class Days	Time	Location
Mondays-Thursdays	8 am-2 pm	Van Dusen Hall, Pinehurst Campus
Mondays & Wednesdays	6-9 pm	
Tuesdays & Thursdays (online)	5:30-8:30 pm	The Robbins Center, 110 N. Middleton St.
Mondays-Thursdays	8 am-2 pm	Upchurch Hall, Hoke Center
Tuesdays & Thursdays	5:30-8:30 pm	

HSE is offered in a virtual format for qualified students. Assessment and information will be provided at orientation. Computer or tablet and Internet access is required.

Two Years of Tuition and Fees Paid in Full for HSE Graduates

For students who earn a High School Equivalency (GED) diploma at SCC, are committed to earning a college degree or a Workforce Continuing Education credential, and have proven themselves in the classroom, can apply for the HSE Scholars Program. This program will provide two full years of tuition and fees paid to earn a college degree or a WCE credential. The two years of eligibility begin the semester after the final HSE test and will end six consecutive semesters later. SCC HSE graduates not qualifying for the program are eligible to receive a \$250 scholarship to use at Sandhills within one year.

English Language Acquisition (ELA)

For adults who have limited or no proficiency in the English language. Various instructional methods available to meet all students' needs. For more information or to schedule an ELA orientation, contact Isabel Cain at (910) 246-4975 or cainm@sandhills.edu.

Automotive Majors

Learn more about our Automotive programs at www.sandhills.edu/programs/transportation or contact Brian Garner at garnerb@sandhills.edu.

Automotive Systems Technology

Associate in Applied Science • Diploma
Automotive Management Certificate • C-Tech Certificate
Light-Duty Diesels and Emerging Technologies Certificate

Automotive Systems Technology prepares individuals to apply technical knowledge and skills to repair, service, and maintain all types of automobiles. Includes instruction in brake systems, electrical systems, engine performance, engine repair, suspension and steering, automatic and manual transmissions and drive trains, and heating and air conditioning systems

Collision Repair and Refinishing

Associate in Applied Science • Diploma
Automotive Fabrication Certificate • Non-Structural Repair Certificate
Paint and Refinishing Certificate • Structural Repair Certificate

Collision Repair and Refinishing Technology prepares individuals to apply technical knowledge and skills to repair, reconstruct and finish automobile bodies, fenders, and external features. Includes instruction in structural analysis, damage repair, non-structural analysis, mechanical and electrical components, plastics and adhesives, painting and refinishing techniques, and damage analysis and estimating.

Collision Engineering Technology

Associate in Applied Science

Collision Engineering Technology prepare individuals for employment as entry-level transportation service technicians. The program provides an introduction to transportation industry careers and increases student awareness of the diverse technologies associated with this dynamic and challenging field.

AVIATION

Short-Term Training-Automotive

To register, scan the QR code or visit sandhillscc-register.fundfive.com/course.
 For questions and more information, call 910.695.3980.

FAA Remote Drone Pilot Certification

Prepare for the FAA Part 107 Remote Pilot certification exam. Topics include flight theory, flight operations, flight training, national air space, and weather. Upon completion, students will be prepared to sit for the FAA Part 107 Remote Pilot Knowledge Test and NCDOT UAS Operator Permit. Texts found on Amazon: Remote Pilot Test Prep 2025-2026, Airman Knowledge Testing Supplement for Sport Pilot, Recreational Pilot, Remote (Drone) Pilot, and Private Pilot 2025 version. CEU: 2.9

Code	Format	Class Days	Dates	Time	Instructor	Location	Cost
87145	Classroom	Tuesdays & Thursdays	Aug. 5-Sept. 4	6:30-8:30 pm	Paul Von Hardenberg	Pinehurst Campus	\$130

Aviation Majors

Learn more about our Aviation program at www.sandhills.edu/programs/transportation or contact Jenny Lowd at lowedj@sandhills.edu.

Aviation Management

Associate in Applied Science in Aviation Management

The Aviation Management major focuses on the skills and knowledge required for aviation related careers including those in general aviation, the aerospace industry and state and federal aviation organizations.

Career Pilot Technology

Associate in Applied Science in Professional Pilot Technology
Instrument Pilot Certificate • Private Pilot Certificate

The Professional Pilot major focuses on the skills and knowledge required to be a successful commercial pilot. Graduates may earn a commercial pilot certificate with an instrument rating.

BUSINESS

Short-Term Training- Business

To register, scan the QR code or visit sandhillscs-register.fundfive.com/course.

For questions and more information, call 910.695.3980.

Medical Administrative Assistant (CMAA)

See page 24.

Notary Public

This course is required for anyone interested in becoming a Notary Public for the first time. It is recommended for all notaries as a refresher course. Note: The current edition of The Notary Public Manual for North Carolina, March 2016, ISBN: 978-1-56011-851-0, is required for admittance to the class and can be purchased online at the new SCC eCampus bookstore at sandhills.ecampus.com. It is strongly recommended that you study the guidebook prior to class attendance to be better prepared for the state examination given at the end of the class. NCGS 10B-5(b) provides the following requirements to be commissioned as a Notary Public in NC: 1) Be at least 18 years of age or legally emancipated as defined in Article 35 of Chapter 7B of the General Statutes; 2) Reside or have a regular place of work or business in this State; 3) Reside legally in the United States; 4) Speak, read, and write the English language; 5) Possess a high school diploma or equivalent; 6) Pass the course of instruction described in this Article, unless the person is a licensed member of the North Carolina State Bar; 7) Purchase and keep as a reference the most recent manual approved by the Secretary that describes the duties and authority of notaries public; 8) Submit an application containing no significant misstatement or omission of fact. CEU: 0.8

Students must provide current state or federal picture identification for admission to class. An active duty military and civilian ID cards DO NOT meet identification requirement.

Course Code	Class Days	Date	Time	Instructor	Location	Cost

Electrical Level I

Prerequisite/Co-requisite: Core & OSHA 10
Electrical Level I introduces trainees to the electrical trade, safety, circuits, National Electrical Code, device boxes, hand bending, raceways and fittings, conductors and cables, electrical construction drawings, residential electrical services, and test equipment.

Will be
offered Fall
Semester
2025.

Electrical Level II

Prerequisite: Electrical Level I
Level 2 builds upon the concepts and skills acquired in level 1 and introduces trainees to topics such as Alternating Current, Motors, Electric Lighting, Conduit Bending, Pull and Junction Boxes, Conductor Installations, Cable Tray, Conductor Terminations and Splices, Grounding and Bonding, Circuit Breakers and Fuses, Control Systems, and Fundamental Concepts.

Will be
offered Fall
Semester
2025.

Electrical Level III

Prerequisite: Electrical Level II
Level 3 builds upon the concepts and skills acquired in the NCCER Electrical Levels I & II courses. Successful completion qualifies students to receive the NCCER Electrician Level III Certification and inclusion on the NCCER National Registry for Electricians. The course is broken down into topics including load calculations - branch and feeder circuits, conductor selection and calculations, practical applications of lighting, hazardous locations, overcurrent protection, distribution equipment, transformers, commercial electrical services, motor calculations, and motor controls.

Will be
offered Fall
Semester
2025.

EPA Refrigerant Certification

Prerequisite: HVAC Level II or 1 year of field experience.
This course covers the requirements for the EPA certification examinations. Topics include small appliances, high-pressure systems, and low-pressure systems. Upon completion, students should be able to demonstrate knowledge of refrigerants and be prepared for the EPA certification examinations.

Code	Class Days	Dates	Time	Instructor	Location	Cost

Education Majors

Learn more about our Early Childhood Education program at www.sandhills.edu/programs/all-programs.html or contact Susan Wright at wrights@sandhills.edu. Learn more about our Teacher Preparation programs at www.sandhills.edu/programs/university-transfer/index.html or contact Sue Sheets at sheetss@sandhills.edu.

Early Childhood Education

Associate in Applied Science
Associate in Applied Science-Birth-Kindergarten Licensure Transfer
Associate in Applied Science- Non-Teaching Licensure Transfer
Infant/Toddler Care Certificate • Preschool Care Certificate • Administration Certificate

The Early Childhood Education curriculum prepares individuals to work with children from birth through eight in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Teacher Preparation

Associate in Arts • Associate in Science

The University Studies Teacher Preparation program provides opportunities for students to complete coursework that will transfer as baccalaureate credit to four-year colleges and universities.

ENGINEERING

Engineering Technology Majors

Learn more about our Engineering programs at www.sandhills.edu/programs/all-programs.html or contact Ed Spitler at spitlere@sandhills.edu.

Architecture

Associate in Applied Science • Certificate

We will prepare you to assist architects, engineers, and construction professionals in developing plans and related documentation for residential and commercial projects in both the private and public sectors.

Civil Engineering

Associate in Applied Science • Certificate

We will prepare you to use basic engineering principles and technical skills to carry out planning, documenting and supervising tasks in sustainable land development and public works and facilities projects.

Environmental Engineering

Associate in Applied Science • Certificate

We will prepare you to use mathematical and scientific principles to modify, test, and operate equipment and devices used in the prevention, control and remediation of environmental problems and development of environmental remediation devices.

Geomatics

Associate in Applied Science • Certificate

We will prepare you for the delineation, determination, planning and positioning of land tracts, boundaries, contours and features applying principles of route surveying, construction surveying, photogrammetry, mapping, global positioning systems, geographical information systems, and other kinds of property description and measurement to create related maps, charts and reports.

HEALTH CARE

Short-Term Training-Health Care

Unless otherwise noted, scan the QR code or visit sandhillscs-register.fundfive.com/course to register.
For questions and more information, call 910.695.3980.

Central Sterile Processing

Learn to apply the principles of sterilization and disinfection in the workplace, as well as the principles of distribution of instruments and supplies. Explore preparation, storage, quality assurance, and inventory management. This class prepares students for the Sterile Processing and Distribution Technician certification offered by CSPDT. This is a hybrid course with online instruction. Reliable internet, a computer, or a laptop are required for hybrid courses. Students will need to use Chrome or Firefox web browsers for online instruction. Contact Marta Kane at kanem@sandhills.edu with questions. CEU: 9.6

Code	Format	Class Days	Dates	Time	Instructor	Location	Cost

Health Care Majors

Learn more about our Health Care programs at www.sandhills.edu/programs/all-programs.html or contact the coordinator indicated on the program webpage.

Emergency Medical Science	<p>Associate in Applied Science • Diploma Advanced EMT Certificate • EMS Bridging</p>						
	<p>The Emergency Medical Science curriculum provides individuals with the knowledge, skills and attributes to provide advanced emergency medical care as a paramedic for critical and emergent patients who access the emergency medical system and prepares graduates to enter the workforce.</p>						

Health and Fitness Science	<p>Associate in Applied Science • Certificate</p>						
	<p>The Health and Fitness Science program is designed to provide students with the knowledge and skills necessary for employment in the fitness and exercise industry.</p>						

Medical Laboratory Technology	Associate in Applied Science
The Medical Laboratory Technology curriculum prepares individuals to perform clinical laboratory procedures in chemistry, hematology, microbiology, and immunohematology that may be used in the maintenance of health and diagnosis/treatment of disease.	
Nurse Aide	Certificate
The Nurse Aide curriculum prepares individuals to work under the supervision of a licensed Registered Nurse (RN) in performing nursing care and services for persons of all ages.	
Nursing	Associate Degree in Nursing • Associate in General Education Nursing
The Associate Degree Nursing (ADN) curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.	
Radiography	Associate in Applied Science • Computed Tomography Imaging Certificate
The Radiography curriculum prepares the graduate to be a radiographer, a skilled health care professional who uses radiation to produce images of the human body.	
Respiratory Therapy	Associate in Applied Science
The Respiratory Therapy Curriculum prepares individuals to function as respiratory therapists. In these roles, individuals perform diagnostic testing, treatments, and management of patients with heart and lung diseases.	
Surgical Technology	Associate in Applied Science • Diploma
The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.	
Therapeutic Massage	Associate in Applied Science • Diploma
The Therapeutic Massage Curriculum prepares graduates to work in direct client care settings to provide manipulation, methodical pressure, friction and kneading of the body for maintaining wellness or treating alterations in wellness throughout the lifespan.	

INDUSTRY & MANUFACTURING

Short-Term Training-Industrial

IT CREDENTIALS AND CYBER SECURITY

CompTIA Security+ Certification Prep	<p><i>Our CompTIA IT Credentials and Cyber Security track of three certification preparation courses (A+, Network+, and Security+) can be taken in any order.</i></p> <p>CompTIA Security+ is a global certification that validates the baseline skills necessary to perform core security functions and pursue an IT security career. The new CompTIA Security+ (SY0-701) represents the latest and greatest in cybersecurity, covering the most in-demand skills related to current threats, automation, zero trust, IoT, risk – and more. Once certified, you'll understand the core skills needed to succeed on the job – and employers will notice, too. The Security+ exam verifies you have the knowledge and skills to assess the security posture of an enterprise environment, recommend and implement appropriate security solutions, and monitor and secure hybrid environments, including cloud, mobile, Internet of Things (IoT), and operational technology. You will also demonstrate the ability to operate with an awareness of applicable regulations and policies, including principles of governance, risk, and compliance, and identify, analyze, and respond to security events and incidents. CompTIA Security+ is compliant with ISO 17024 standards and approved by the U.S. DoD to meet directive 8140/8570.01-M requirements. CEU: 12.6</p> <p>Scholarships are available for this course.</p>

Public Safety Majors

Learn more about our Public Safety programs at sandhills.edu/programs/all-programs.html or contact the coordinator indicated on each web page.

BLET	Certificate
Basic Law Enforcement Training (BLET) is designed to give you the essential skills required for entry-level employment as law enforcement officers with state, county or municipal governments, or with private enterprise.	

Criminal Justice	Associate in Applied Science • Certificate Associate in Applied Science Forensic Science • Forensic Science Certificate
The Criminal Justice Technology Curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial processes, corrections, and security services. The criminal justice system's role within society is explored. Forensic Science is a concentration under the curriculum of Criminal Justice Technology, which focuses on the application of the physical, biomedical, and social sciences to the analysis and evaluation of physical evidence, human testimony and criminal suspects. Study will focus on local, state, and federal law enforcement, evidence processing and procedures.	

Fire Protection	Associate in Applied Science Fire Inspection Certificate • Fire Management Certificate
The Fire Protection Technology curriculum is designed to provide students with knowledge and skills in the technical, managerial, and leadership areas necessary for advancement within the fire protection community and related firefighting industries, and to provide currently employed firefighters with knowledge and skills often required for promotional consideration.

Sandhills Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees, diplomas, and certificates. Contact the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Sandhills Community College.

Sandhills Community College does not discriminate on the basis of race, color, gender, ethnic or national origin, sex, sexual orientation, gender identity, marital or parental status, religion, age, ancestry, mental or physical disability, military status or veteran status.

ON THE COVER:

CDL Truck Driver Training

Our 10-week program equips students with the essential skills to confidently pass the Class A Commercial Driver Permit and Commercial Driver License (CDL) exams. Through a combination of expert-led instruction and hands-on, behind-the-wheel training, students gain the real-world experience needed to safely operate tractor-trailers.

Fire Academy

Train for an in-demand career as a firefighter with our comprehensive training program. Take advantage of free tuition if you're a current volunteer firefighter. Earn industry-recognized certifications, including Firefighter I/II, Hazardous Materials Ops, Technical Rescuer, and Emergency Vehicle Driver. Our program also incorporates EMT-Basic training, fully preparing our students to pass the state certification exam.

COMMUNITY COLLEGE

SANDHILLS PROMISE

If students take four "Career & College Promise" classes while in high school, the "Sandhills Promise" will cover tuition costs for two years immediately following graduation, saving them thousands of dollars in tuition and helping them to forgo a large amount of college debt.

A complete list of eligibility and paperwork requirements can be found at www.sandhills.edu/promise.

For more information contact Rachael Mashburn at mashburnr@sandhills.edu, or call (910) 695-3726.
