Adopted:09-10-2025

It is the College's intent to provide efficient services for its employees, students and also for the public. The Board of Trustees ("Board") encourages College officials and students to use electronic means, especially electronic mail, when conducting College business when those means result in efficient and improved service.

The Board encourages the acceptance of electronic signatures in e-mails from college campus accounts. An electronic signature is defined as any electronic process signifying an approval to terms, and/or ensuring the integrity of the document, presented in electronic format.

An electronic signature is considered valid when one of the following conditions is met:

Condition 1: Student/Employee Log in ID and Personal Identification Number (PIN)

- Institution provides student or employee with a unique PIN
- Student or employee sets his or her own PIN
- Student or employee logs into a secure site using both the Log in ID and PIN

Condition 2: Campus Network Username and Password

- Institution provides student or employee with a unique username
- Student or employee sets his or her own password
- Student or employee logs into the campus network and secure site using both the username and the password

Students may use electronic signatures to register, check financial aid awards, pay student bills, obtain unofficial transcripts, update contact information, log into campus computers, complete forms, submission of class work, tests, etc. Employees may use electronic signatures for submitting grades, viewing personal payroll data, logging into campus computers, accessing protected data through the administrative computing system and custom web applications provided by the College, etc.

The College may use or purchase particular software platforms that facilitate electronic signatures from users when appropriate.

College user accounts are to be used solely by the student or employee assigned to the account. Users may not allow access to their accounts by other persons, including relatives or friends. All users are responsible for protecting the confidentiality of their account and for adhering to Procedure 9.2.3 – Internet and Network Acceptable Use.
