
Adopted: September 1, 2026

The College is committed to providing students, faculty and staff a safe and healthy work environment. As required by federal and state laws and regulations, the College's written Comprehensive Safety Plan, which includes the hazard communication and chemical hygiene plans shall be available to all employees, their designated representatives, and local, state and federal occupational safety and health authorities.

A written copy of the College's Comprehensive Safety Plan, as well as an inventory of all chemicals on campus, and the Material Safety Data Sheets ("MSDS") for those chemicals, are located in the Physical Plant Records Room in McKean Hall.

In complying with OSHA's Hazard Communications Standard, the College shall, among other things:

1. Develop a list of chemicals maintained on campus;
2. Label all containers that contain hazardous materials;
3. Keep Material Safety Data Sheets ("MSDS") on file and available on request; and
4. Implement a training program to ensure that all employees are familiar with the hazardous materials on campus.

All hazardous materials and chemicals purchased or received by the College must be labeled with the following information:

1. Identity of the hazardous material/chemical;
2. Appropriate hazard warning; and
3. Name and address of the manufacturer, importer or other responsible party.
