Summer '16 at Sandhills

Introducing Our New Logo & New Mascot

The Sandhills Hoke Center

The Human Services Program

Curriculum and Continuing Education Schedule of Classes
Did you save enough?
If not, we have over $500,000 in scholarships to award.

Applications Are Now Being Accepted for 2016-17 Academic Year
Current high school seniors, prospective students and current SCC students can apply.
Please do not assume you are not eligible — you will only know if you apply (and it is very easy to do online).

www.sandhills.edu/scholarships

Summer Concerts on the Green
A Sandhills Summer Tradition

June 13 • July 11 • August 8
Music Begins at 6:30 pm
Bring your lawn chair or blanket and enjoy an evening under the pines and stars with the SCC Jazz Band. In the event of rain, event will move into Owens Auditorium

The Katharine L. Boyd Library
Free to Moore and Hoke County Residents

NY Times Best-Sellers
Adult & Children DVD Loans-3 for 3 days
Children’s Section
Over 100 Magazines
Elementary & Middle School “Battle of the Books” Available
Research Assistance
Community Computers
Free Wi Fi

Summer Semester Hours
Monday-Thursday 7:45 a.m. - 8:30 p.m.
Friday 7:45 a.m. - Noon
Closed Saturday & Sunday

TEN POUND NOTES
Get tickets today at JudsonTheatre.com

All performances at Owens Auditorium
The Lifelong Learning Institute (LLI), a partnership with St. Joseph of the Pines.

Community members are invited to become students of the LLI. You will be invited to participate in campus and community programs designed to expand your creativity, sharpen skills, and enhance overall intellectual wellness.

Members will receive special notices regarding:
- Classes • Campus Events
- Seminars • Concerts • Lectures
- Plays & Musicals • Exhibits & Displays
- Culinary Luncheons

LLI classes and events will be held on the Sandhills Community College campus, at Belle Meade and Pine Knoll and at other locations throughout the community.

To become a member go to lli.sandhills.edu and register or call Rose George at (910) 695-3861.

Look for this icon throughout the listing of Continuing Education classes. It will indicate courses that may be of interest to LLI members.

The Carolina Philharmonic Pops Season Finale

A NIGHT ON BROADWAY

Saturday, May 14
3 pm and 7 pm
Owens Auditorium

A Night on Broadway features star vocalists Bobby Conte Thornton (A Funny Thing Happened on the Way to the Forum) and Caroline Bowman (Wicked, Evita, Grease) backed up by Maestro David Michael Wolff and The Carolina Philharmonic.

Tickets available at carolinaphil.org or by phone at 910-687-0287.
Our new publication, flightPath, was not only a hit with the local community, it won the Silver Paragon Award for community college class schedules from the National Council for Marketing and Public Relations (NCMPR). This organization is the leading professional development organization exclusively serving two-year college communicators with over 1600 members across the country.

NCMPR’s prestigious Paragon Awards recognize outstanding achievement in communications at community and technical colleges. It’s the only national competition of its kind that honors excellence exclusively among marketing and PR professionals at two-year colleges.

As a NCMPR member, SCC Marketing and Public Relations Director Karen Manning entered flightPath in the competition for class schedules among colleges that have three or fewer employees in the marketing department. She received the award on behalf of Sandhills at the national conference in St. Louis.

In this our third issue, we are profiling the employees of the college who keep our campus safe, the SCC Police Department. We are also featuring the launch of our new brand and the new Flyer’s mascot. We are highlighting our Human Services program, a professor who won a world ice-sculpture competition and the new food service operator at the college. And as always, our class schedules for Continuing Education and a curriculum class list is included.
Curriculum/College Credit
To expedite the enrollment process, new students can apply online prior to coming to campus to take the placement test.

Register for for Sessions A and B classes now through May 23. Register for Session C now through June 27.

Continuing Education
Preregistration is required for all classes and registration is not complete until payment is received. All major credit cards, cash, checks or money orders are accepted.

Three ways to register:
- Call (910) 695-3980 (credit card required); summer office hours are Monday-Thursday 8-5 pm, Friday 8-Noon;
- In person on the first floor of Van Dusen Hall on the Pinehurst Campus; summer office hours are Monday-Thursday 8-5 pm, Friday 8-Noon;
- Fax completed registration form (found online) to (910) 692-6998.

Who Keeps Our Campus Safe?

The team that makes up the SCC Police Department.

Moving from a Security Department to The Police and Public Safety Department in 2010, the campus Police are poised to provide a quick response to incidents on campus and offer campus-specific services not necessarily available from local policing organizations.

The college staffs its own professional police officers and is responsible for campus safety and law enforcement.

Under North Carolina State Law, these officers possess full police powers on all property owned or occupied by the college. The department also operates under a written mutual aid agreement with the Southern Pines Police Department, which gives each department concurrent jurisdiction under special circumstances although primary jurisdictional areas are routinely respected. Sandhills police officers have direct radio contact with Moore County Communications.

The officers not only keep students and employees safe, they are friends to those on campus. Whether it is helping a student jump-start a dead battery, responding to calls for service, or teaching workshops on safety, their presence is appreciated each and every day.

Dwight Threet

He may have over 20 years of law enforcement experience investigating major crimes, homicides, narcotics and working as a patrolman, but Dwight Threet, the director of Campus Police at Sandhills, is mighty scared of spiders.

Maybe it is his ‘realness’ that makes him so easily approachable and well-liked at the college. Most call him by his first name and he comfortably interacts with all those he encounters.

The feelings are mutual. "It’s like having another family here at Sandhills,” said Dwight. “I love that I get to interact with the Sandhills community, not just as a law enforcement officer. I really enjoy being invited into the classrooms and speaking with the students.”

In his spare time, Dwight likes to work out, rehab old homes and cheer on the Pittsburgh Steelers.

Rick Bickel

Coming to the college in 2012, Rick Bickel has great pride in his place of employment, which he feels all who work here hold. “We are all on the same team at Sandhills,” he says. “We may be in a variety of departments, but we work together to make sure our students’ experiences here are special and safe. I wake up every day proud to serve the college and provide the safest and friendliest environment for all who work and attend here.”

Rick is certified in many areas, a few of which are gang intelligence, CIT, BLET, Alive@25, pepper spray instruction, narcotics intelligence, alert and solo active shooter. He is an Alive @ 25 and BLET instructor at the college.

Joe Steppe

North Carolina is the perfect state for those who love the mountains as much as the beach –which describes Joe Steppe. Hailing from Old Fort, Joe began his career in law enforcement in Wilmington. He has 12 years of experience and is a NRA certified instructor, a Law Enforcement instructor, a Crime Prevention Officer and holds IPMBA Bike Officer Certification and numerous other law enforcement certifications. Joe has worked at the college for six years.

Dion Hice

Like most employees at Sandhills, Dion Hice feels the college is a special place to work. Last year, a health issue kept him in the hospital for over a month and his coworkers from the college gave him an unimaginable deal of love, support and help. “People here care about each other,” he says.

After 12 years in the Army with three Middle East deployments, Dion protects and serves at the Sandhills Hoke Center. He has only two classes remaining in order to receive a master's degree.

Dion is originally from Big Bear City, California.

Carroll Rickard

After 15 years in law enforcement with the Lee County Sheriffs Department and the Spring Lake Police Department, Carroll Rickard joined the Sandhills Police Department as a part-time officer in 2008. He is originally from Thomasville but has lived in the Sandhills region for 43 years.
In a world that is continuously shrinking and requiring increasing interaction with the global community, Sandhills Community College is pleased to announce its participation in NC Global Distinction; an initiative between North Carolina community colleges and UNC-Chapel Hill. Beginning fall semester of this year, this initiative is developing a state model of best practices for internationalizing the curriculum and campus programs.

At Sandhills Community College the initiative will be known as the Global Scholars Program. A curriculum student who completes a combination of classwork and activities and maintains a 3.0 will have “Graduated with Global Distinction” on their transcript.

For additional information or for a Global Scholars Program application, please contact Professor Abbe Allen at 910-695-3854 or debolta@sandhills.edu.
College Launches New Brand Identity

Coinciding with the 50-year anniversary of the ribbon-cutting of the first buildings on the Pinehurst campus, Sandhills unveiled a new branding identity.

For several years, Sandhills Community College administration and marketing personnel explored the idea of a new brand in order to better reflect the atmosphere and values found at the college and the high esteem in which the college is held in the community.

A competitive analysis was completed and numerous focus groups were carried out. Community patrons and leaders, students, alumni, faculty, staff, and high school students and their parents were among those who participated in focus groups. The results from the research yielded the basis for the new identity package launched by the college.

- **Learn** We impact our students’ lives and improve our community through learning. A Sandhills education enables our students to achieve a good career, gain higher incomes, contribute back to their community, and enjoy a better life with their family.

- **Engage** Sandhills has many opportunities for students and community members to engage. Our outstanding gardens, world-renowned lecturers, entertaining concerts and musicals, thrilling Flyers athletic events, and our exceptional library allow for life-enriching experiences.

- **Belong** Our community is part of the Sandhills family. Local residents volunteer at the college. They tutor students. They give tours of the gardens. They give financially to the college and our students. They take classes. They refer family and friends to Sandhills. They are members of our Alumni Association. People have a sense of belonging to Sandhills Community College.

An Icon That Tells a Story

The new Sandhills Community College icon has five shapes resting on a graphic bar, signifying the five core values and the college mission as the foundation.

The negative or background space of the mark hints at a tree, reflecting our lovely campus environment and the educational growth our students experience.

The icon is in the shape of an arch, harking back to our community’s historic significance and mirroring the 231 arches found on the campus in the form of arched windows, passageways and doors.

The new brand’s color palette reflects the heritage of the athletic logo, developed several years ago.

Brand Utilization

The brand was unveiled to the faculty and staff of the college in March at a special presentation with a video, banner, and a cake and cupcakes decorated with the logo. The video can be viewed on the college’s YouTube channel at youtube.com/sandhillscc. The new identity will now be utilized on all marketing and promotional materials.
Sandhills’ Human Services Program – It’s About Caring

The college catalog definition of the Sandhills Human Services Technology program is that it “prepares students for entry-level positions in institutions and agencies which provide social, community and educational services.” On another level, the program is much more than training people for a career. Here we allow two graduates to “tell our story.” Their testimonies will give you true insight as to how attending Sandhills can transform lives.

Kamilah Douglas

Kamilah Douglas’ experiences at Sandhills clearly represent the college’s new tagline of “Learn. Engage. Belong.”

Beginning as a student without a high school diploma, Kamilah obtained her equivalency at Sandhills. She went on to enroll in the Human Services program.

“My program instructors, Patricia Harris and Carol Hoffman are amazing women,” Kamilah raves. “They made learning fun, entertaining, and they taught with passion. Whenever they put forth an assignment they taught us to understand each and every point about the assignment and made learning personal. Not only do I admire them as teachers, but most of all, these are two women are ultimate role-models.”

Kamilah has noble aspirations. Even though she currently works 47-55 hours each week at the Hoke County Department of Social Services and manages a home with two school-aged children, her heart’s desire is to open a residential treatment center where she can help unwanted or abused children and homeless individuals. She would like to give such people a stable environment while they get their lives in order and see to it that children are not forced to live in one location after the other.

Family is important to Kamilah, and family is how she describes Sandhills. “The faculty and staff make students feel they are part of a family,” she said. “We are not a number, but respected as a person. Everyone cares about the students, not just the instructors. Those in the Financial Aid Office, the Bookstore, the Tutoring Center, the cafeteria... they all make students feel a sense of belonging. They go above and beyond in their help to see students succeed.

“Our instructors were never too busy to help with assignments, give directions and help as advisors. But they were more than that; they were parents, friends, prayer partners... they were more than what one can imagine. Class time was never dull, they taught beyond my expectation of the program. They brought life into the classroom and in some cases with people, they gave them life.”

After completing one class required for an associate degree, Kamilah would like to earn a bachelor’s degree and eventually a masters degree in social work.

Tonia Locklear

Being a non-traditional student was a little intimidating for Tonia Locklear. “I kept asking myself ‘How in the world am I going to compete with the younger generation?’” she said. “But my fears were put to rest when I experienced personalized attention from my professors. They were dedicated to my education.”

Tonia felt she wasn’t just a student, but part of something bigger, a chance to be proactive in her community. “In the Human Services Club we participated in food drives, the collection of coats for the Sandhills Coalition for Human Care, the annual Southern Pines Christmas Parade and the college’s Spring Fling. As a team we collaborated and created a motto and logo for the club, “I Can’t, But WE Can!”

Being able to complete an internship laid out a foundation and provided her the skills and confidence she needed to excel in her career and meet her educational goals.

Tonia is currently a Mobile Crisis Professional with Monarch. On a typical day, she can be found out in the community responding to crisis calls throughout her four county service area. She could be in a home or doctor’s office, a school or any place where someone is in crisis and in need of a mental health assessment.

Tonia never imagined she would be pursing a master’s degree, but in a few years she plans to earn one in Social Work as she continues to work in the mental health field. She hopes to become a Licensed Clinical Social Worker.

Summing up her Sandhills experience Tonia said, “When I returned to school I was in my mid-thirties. I figured I was too old to make a career change, but I am so glad I chose Sandhills. They set the tone for me to pursue a bachelor’s degree in Social Work and raise my standard of living. I am forever thankful to my professors – especially Professor Harris – without her belief in me I wouldn’t be where I am today.”

In what little free time she has, Tonia enjoys watching her twins play sports and is involved in church and community activities.
The Sandhills Hoke Center Continues to Expand Offerings

The Sandhills Hoke Center in Raeford is experiencing growth; due largely to an increase in number of students interested in taking classes at this location. One reason for the increased interest is due to the expansion of programs students are able to complete at the Sandhills Hoke Center.

Curriculum Programs Offered at the Hoke Center
The Criminal Justice Technology program is providing more learning opportunities at the Hoke Center, which includes more hybrid and traditional class offerings, thus enabling greater student success.

The Basic Law Enforcement Training (BLET) program is offered at the Sandhills Hoke Center. It is a ten-month program with classes meeting one to two days each week and beginning in August of each year. Students successfully completing this BLET course will receive curriculum credit for CJC 113, CJC 120, CJC 131, CJC 132, CJC 221 and CJC 231 toward the Associate in Applied Science degree in Criminal Justice Technology, if they have completed BLET since 1985.

The Early Childhood Education Preschool Certificate will be offered at the Hoke Center beginning in August 2016. Courses will be offered in the evenings and delivered in a hybrid format (traditional classroom instruction combined with online instruction) allowing more access to the required classes.

Many courses required for the Associate in Arts degree are taught regularly at the Hoke Center. Students find greater success when beginning in traditional classes or hybrid classes and moving to online classes as they progress through the degree program.

Interactive Television System
Sandhills Hoke Center has recently added Interactive Television System as a new instructional delivery format. This system allows an interactive environment where an instructor provides instruction to students at the Hoke Center and the Pinehurst campus simultaneously by transmitting video and audio via a television system. The instructor can see and communicate live with students in the classroom as well as those in the remote location. The students in both locations can interact in real time as well.

Sandhills Hoke Center will offer a number of curriculum classes through the Interactive Television System beginning in the 2016 fall semester.

Computer Lab
The Sandhills Hoke Center boasts a computer lab for students to use if taking courses requiring access to computers. Students can receive help with the “how-to’s” of online coursework.

Student Services
The Sandhills Hoke Center offers on-site assistance to students interested in enrolling in curriculum courses or degree programs. Rosa McAllister-McRae, Director of Student Services-Hoke County, can be reached at 910-878-5804 or mcallisterr@sandhills.edu to assist with the enrollment process.

SandHoke Early College High School
Beginning in 2006, 55 ninth-graders began an innovative and now proven highly successful program. A tuition-free partnership between Hoke County Schools and Sandhills Community College allows students to earn a high school diploma and an associate’s degree in five years. Students begin high school on the campus of the SCC Hoke Center and after three years, begin taking classes on the campus in Pinehurst.

Sandhills has seen 228 students graduate from SandHoke. Currently there are 107 students taking classes on the Hoke Center campus and 101 on the Pinehurst campus.

Continuing Education
Career Training classes such as EKG Technician, Nurse Aide I, Phlebotomy Technician, Pharmacy Technician, Bank Teller Training and Notary Public are regularly taught at the Hoke Center. Trades Education has expanded to include training for a career as a Certified Production Technician. The Hoke Center also offers Career Development courses in Direct Care Work and Pre-Employment Training. College and Career Readiness classes are available in Adult High School, Adult Basic Education, High School Equivalency and English Language Acquisition.
The flightDECK Café & Coffee Bar Opens on Campus

Earlier this year, Sandhills Community College alumnus Patti Wolcott and her husband Scott opened The FlightDECK Café & Coffee Bar in the Peterson Dining Commons in Dempsey Student Center. The Wolcotts are serving breakfast and lunch weekdays from 7:30 a.m. to 2 p.m.

The flightDECK is available for not only college students and employees of the college, but those taking Continuing Education classes and visitors to the campus.

The Wolcotts offer a full range of breakfast items such as omelets, loaded biscuits and pancakes. Fresh salads, sandwiches and soups along with Paninis, burgers, pizza, wings, enchiladas, sides and much more are available for lunch.

Gourmet coffees, lattes, cappuccinos and espressos are brewed fresh at the coffee bar which also offers a variety of iced specialty coffees and bakery items.

Catering by The FlightDECK is available by calling (910) 695-3785 or emailing scccaf@sandhills.edu.

Culinary Arts Professor Wins in World Ice Sculpture Competition

A Sandhills Community College Culinary Arts professor and his friend turned a four-ton block of ice into a fourth place award in the 2016 BP World Ice Art Championship held in Fairbanks, Alaska.

Competing against 50 teams from 17 countries, Chef Chris Currier and Todd Dawson of Raleigh competed in the realistic category of the Single Block Classic. “The competition was amazing with the most talented artists from all over the world,” said Chef. “It was a true blessing to place fourth and walk across the most prestigious stage in the ice carving world.”

Chef Currier and Todd spent a great deal of time working on the design prior to heading to Alaska, almost 10 months. Their goal was to design something that displayed the beauty of the Alaskan wilderness while showing movement and motion. Their work of art was entitled “Into the Wind.”

In addition to his teaching responsibilities at Sandhills, Chef Currier owns and operates CRC Iceworks. Photos of this work of art and many more creations can be viewed on his Facebook page. Simply search for Chris Currier-CRC Iceworks.

culinary.sandhills.edu
Sandhills Community College promises that no deserving student will be denied a college education because of inability to pay.

**Tips for Applying for Financial Aid**

The financial aid application process may be lengthy, so it’s important to begin early. Students must complete the online Free Application for Federal Student Aid (FAFSA) for colleges to determine eligibility. The form is available each January and must be completed annually. Deadlines for the FAFSA form and required documentation submission are set each term: fall semester deadline is in early July, spring semester, early December and summer semester is early May. Check the SCC website, or call the SCC Financial Aid Office for specific dates prior to each semester.

Some students may be asked to complete verification, which requires additional documentation be provided to the SCC Financial Aid Office. Documents may include tax return transcripts, child support information and personal identification. The process can take additional time if outside agencies are asked for information.

**Keys to a Smooth Process**

Begin early. The earlier you begin the application process, the more likely your aid will be processed in a timely manner.

- File your federal taxes as early as possible.
- Allow yourself ample time to request and receive all required additional forms.

Respond promptly to all requests.

Thoroughly complete all financial aid forms.

Be patient with the process.

On the next few pages you will find a list of the curriculum classes we plan to offer for summer semester. We have three summer sessions. Session A runs May 24-July 28 (register now through May 23), Session B runs May 24-June 23 (register now through May 23), and Session C runs June 28-July 28 (register now through June 27). Current students can utilize WebAdvisor and register up to May 19.

Curriculum classes are open to both non-degree and degree-seeking students. If you are taking classes in order to earn a degree, diploma or certificate, you must be at least 16 years old, have a high school diploma and meet the required prerequisite classes.

If you plan to earn a degree, please apply online and make arrangements to take a placement test. This allows you to begin in the proper level class. You do not need to take the SAT or ACT to attend, but we can use qualifying scores to exempt you from the placement test.

For course times, locations, instructors and course prerequisites please refer to the Course Schedule at www.sandhills.edu.

As a spouse of an active duty service member you may be eligible for up to $4000 in educational training assistance.

Sandhills has 37 programs that qualify!

Begin at: https://aiportal.acc.af.mil/mycaa/

STUDENT SPOTLIGHT

Kayla Kidd

One of the best ways to launch into a career earlier than most is to begin taking college courses while still in high school. “If a person has dedication and a willingness to learn, they can do what I am doing,” said North Moore High School student Kayla Kidd.

Through the Career and College Promise program, Kayla has taken Nurse Aide classes on the campus of Sandhills, with the only cost to her being her textbooks.

“I have had the opportunity to take college classes and decide if a nursing career is for me,” Kayla said. She now plans to continue at Sandhills and earn an Associate Degree in Nursing and may even go on to earn a bachelor’s degree.

When she is not busy studying or enjoying typical high school Senior activities, Kayla enjoys the outdoors, especially kayaking.
The Hangar is Now the Home Gym for The Flyers

The long-awaited Hangar is now the official home gym for The Flyers. Opening in October with the Region X Women’s Volleyball Tournament and dedicated in February at half-time during a game against CCC, the newly enlarged gym is now a hub of activity on the campus.

Banners were unfurled proclaiming the National Championships won by the 2011-12 men’s basketball team and the 2014 men’s golf team.

The women’s volleyball team and men’s basketball will play home games in the gym and it will also be used for physical education classes and intramural sports.

Marty McFlyer Lands in The Hangar

Since the reintroduction of an athletic program at Sandhills, the teams have been known as ‘The Flyers.’ But we have not had an official mascot. Of course, an aviator is the ultimate ‘flyer,’ and was an obvious choice to represent a college located on Airport Road and under the flight path of jets and planes landing and taking off from the Moore County Airport.

Late in the basketball season, an aviator emerged from the men’s locker room into a packed gym. Marty McFlyer, named through a student and employee contest, will now make appearances at events, parades, athletic contests and all sorts of special occasions.

Basketball Recap

The men’s basketball team added another successful season to the books. Sandhills finished 19-11 bringing Coach Mike Apple’s five-year record for the college to 121-42. Sophomore forward Tony Harper has accepted a scholarship offer to finish his degree at Johnson C. Smith University in Charlotte. Freshman guard Josh Smith earned First Team Region X laurels.

COLLEGE CREDIT/CURRICULUM COURSES TUITION
The North Carolina General Assembly sets tuition rates for in-state and out-of-state residents. If you do not pay the tuition and fees required for your classes by the last day to pay found on the Academic Calendar, your registration is not complete. In addition, the classes for which you have registered will be dropped, and you will need to register again. We accept cash, checks, money orders, credit cards, and debit cards. Payment is accepted online through WebAdvisor, in person, via a drop box located outside the Business Office, and by mail.

COLLEGE CREDIT/CURRICULUM REFUNDS
A preregistered curriculum student who officially drops one or more classes prior to the first day of the semester will be eligible for a one-hundred percent tuition refund. The student activity and technology fees will also be refunded if the student officially drops all classes prior to the first day of the semester. Thereafter, a refund of seventy-five percent of only the tuition will be made through the ten percent date of the semester. Students do not qualify for a refund of fees after the one hundred percent date. All tuition will be refunded if a class is canceled. Refunds will be processed within four weeks of the ten percent date.

CONTINUING EDUCATION COURSES COSTS
Effective July 1, 2013 the following fee schedule will be used to determine course fees. This does not include the technology fee for each course with the exception of College & Career Readiness. A limited number of scholarships may be available.

2350 TBD TTH 2-5pm
Our local manufacturing industry is on the rise and employers are looking for skilled workers to meet the growing need for in-demand, entry level positions. Our Trades Education programs are designed to provide a workforce trained through hands-on, high quality, certified instruction with state-of-the-art equipment in welding, electrical and certified production technician.

Using National Center for Construction Education and Research (NCCER) based curriculum for electrical and welding, our students learn fundamental, high-tech training skills that will prepare them for well-paying employment.

Job placement assistance and career coaching is offered to students who successfully complete the course.

Opportunities are also available for high school students (see guidance counselor).

For more information, contact Trades Coordinator Belinda McFerrin at (910) 246-4117 or mcferrinb@sandhills.edu.

**GRADUATE SPOTLIGHT**

**John Portman**

Working as a mechanical engineer for over 30 years, John Portman was employed in several industries, spending the majority of his career designing display systems for the airline entertainment industry. Because of his career achievements, he holds nine patents. John later owned and operated a retail business for ten years. His hobbies of woodworking and blacksmithing led him to explore welding at Sandhills.

John, who hales from Coleville, California, was very pleased with the hands-on welding training. “It’s nice to have instructors who have so much experience in the skills they are teaching,” he said.
The Public Safety Department works in partnership with multiple accrediting agencies to provide training, certification and recertification, and specialty programs to meet the needs of local public safety agencies. Whether you are a student seeking a career as a firefighter or a seasoned veteran needing your annual recertification, the Public Safety Department has ongoing course offerings to meet your needs. Recognized as an Office of State Fire Marshall (OSFM) Accredited Delivery Agency to meet all state and local training standards.

www.ed2go.com/sandhills

With ed2go we provide the highest-quality online continuing education courses for adults that are affordable and easy to use. As a virtual online college, our instructor-led online courses are taught by top professionals in their field.

Whether you’re looking for professional development or personal enrichment, these six-week online courses are the perfect way to learn a new skill or enhance your existing ones. You’ll spend roughly two to four hours each week completing two engaging lessons in an enjoyable, interactive learning environment. Expert instructors develop and lead every course, and you’ll be able to interact with them and with fellow students in lively online discussion areas.

New sessions start every month, so you can sign up anytime. Upon completing a course with a passing score, you’ll get an award of completion.

*For additional information, contact Lori Degre at (910) 695-3939 or degrel@sandhills.edu.*

**Ed2Go Online Courses are only $75 each unless otherwise indicated.**
Ed2Go Online Courses begin on select Wednesdays of each month:

- May 18
- June 15
- July 13
- August 17
The mission of the Small Business Center at Sandhills Community College is to increase the success rate and numbers of viable small businesses in North Carolina by providing high quality, readily accessible assistance to prospective and existing small business owners that will lead to job creation and retention.

The NC Community College's Small Business Center Network assists in starting an average of more than 600 businesses each year. Small Business Centers have an economic impact in 90% of all NC Counties each year, helping to create and retain nearly 3,000 jobs annually.

Seminars
The Small Business Center offers free seminars targeted for the needs of small business owners and startups. Register for free seminars by visiting our website at sbc.sandhills.edu, calling (910) 695-3980 or emailing williamslo@sandhills.edu.

Resources
A computer in our resource center is available for your use and we will help you locate information you need for your business. We have access to the NC Live database leading you to a demographic data profiler called Simply Map to assist you in defining your market. We also have information on area businesses and numerous books and magazines and will assist you in obtaining a free Boyd Library membership for additional resources.

Counseling
For free one on one counseling services, if you would like information about starting a business or to discuss specific needs regarding your business, please call Lori Williams at (910) 695-3938 or email williamslo@sandhills.edu. You can also visit our website at sbc.sandhills.edu and click on the “Request for Counseling” link and schedule an appointment by using the “Book Now” link.

This is not a comprehensive listing of seminars. To be sure you are notified of all upcoming seminars, visit our website at sbc.sandhills.edu and join our email distribution list.

Three ways to register for Small Business Center seminars:
• sbc.sandhills.edu
• (910) 695-3938
• williamslo@sandhills.edu

Optimize Your SEO
Many small businesses struggle to show up in search engines let alone use it to pull out meaningful data. Do you know what’s driving leads/sales to your website? Let us help you.

How to Protect Your Finances and Prevent Embezzlement
Most people who embezzle funds insist they intended to pay the money back and were simply “borrowing” the funds temporarily. An intent to pay back embezzled funds is not a defense to the crime of embezzlement. One can only imagine how many such schemes actually work without anyone knowing. The courts are not persuaded by the claims of embezzlers that they intended to fully pay back the funds they misappropriated. The crime is complete when the embezzler misappropriates the church’s funds to his or her own personal use. This seminar provides critical information on how to prevent embezzlement by looking at distinct areas such as: • How does embezzlement happen? • Why does embezzlement occur? • How can you reduce the risk?

The Career Development Program at Sandhills Community College is a workforce development program that provides skills assessment services, employability skills training, and career development counseling to individuals in transition and the emerging workforce.

Our goal is to assist students in assessing their interests, personality traits, and abilities, in setting career and/or educational goals, and in creating a pathway that will lead to economic, social, and educational success.

Career Development classes are available to all and may be free for qualified students. Students may also be eligible for a Continuing Education scholarship.

On-going enrollment — an orientation is required. Orientations are offered monthly during the day and evening in Moore and Hoke counties.

College and Career Readiness programs provide educational opportunities at no cost to adults who need a high school equivalency diploma or to improve their academic skills to function more effectively in life or on the job. Each program is designed to meet students’ unique learning needs. Classes are available during the day and evening hours at several convenient locations in Moore and Hoke counties.

Various career pathway opportunities are available for CCR students who wish to accelerate their entry into the workplace. Career pathways include Personal and Home Care Assistant, Nurse Aide Level I, Electrical Apprentice, START Hospitality, and more.

Orientation

Day and night orientations offered monthly in both Moore and Hoke Counties. All potential students must attend. Placement assessments and class options provided.

Call today to reserve your seat for orientation.
