Ryan Book in Concert

Wednesday, Sept. 7
7 pm
Owens Auditorium
No Admission Charge

Ryan Book studied classical guitar at Radford University with internationally noted professor Dr. Robert Trent. In 2009 he received his M.A. in Guitar Performance and Pedagogy from Radford University.

It was in his years at Radford that Ryan had the opportunity to study with some of the world’s most acclaimed musicians including Jorge Caballero, Carlo Barone, and Paul O’Dette. Other masterclass appearances include Anthony Gleiss, Royangi Duo, Thomas Viloteau, Adam Kossler, and Andrew Zohn.

Ryan serves as Chair of the Department Fine Arts at Sandhills Community College where he is also an Associate Professor of music. He is currently working on his D.M.A. in Performance at Shenandoah Conservatory where he studies guitar with internationally noted pedagogue and performer Julian Gray.

Like many students who attend community colleges, Michael Morris (on the cover) wears many hats. While still in high school, Michael took a combined electrical and welding class at Sandhills through the NC Career and College Promise Program. Upon graduating from North Moore, he accepted an electrical helper position with a local employer. This summer, he returned to the college to further his electrical and welding education and aspires to be a welder on a pipeline in the near future. You can read more about Michael and our Trades Programs on pages 21-23.

Also proudly featured in this edition are staff members of the Learning Resources Department located in the Boyd Library. Whether it is help finding resources for a project or assistance selecting the latest New York Times Best Seller, you will find that these staff members best exemplify the SCC core value of helpfulness. Our spotlights include a student in our Collision Repair and Refinishing program and graduates from our Health and Fitness Science program and Welding program. For new and returning curriculum students, page 4 includes a listing and synopsis of the student support services available.

The fall semester is a busy time on campus and we invite you will take advantage of our many activities and events – whether it be a special lecture, performance, concert, or other happening on campus over the next few months.

Learn. Engage. Belong
Curriculum/College Credit
After applying online at sandhills.edu, new students can take advantage of our One Stop Shop. One Stop Shop services include placement testing, academic advising and course registration.

Our fall semester for curriculum courses begins on August 15. Our fall Mini-Mester, which is shorter than traditional fall semester, begins on September 21.

Registration for fall semester classes is July 18-21 and August 11. Registration for fall Mini-Mester is September 19 and 20. Additionally, students can register for both fall and fall Mini-Mester courses in the Student Success Center in Stone Hall.

Continuing Education
Preregistration is required for all classes and registration is not complete until payment is received. All major credit cards, cash, checks or money orders are accepted.

Three ways to register:
- Call (910) 695-3980 (credit card required); office hours are Monday-Thursday 8-5 pm, Friday 8 am-4 pm;
- In person on the first floor of Van Dusen Hall on the Pinehurst Campus; summer office hours are Monday-Thursday 8-5 pm, Friday 8 am-4 pm;
- Fax completed registration form (found online) to (910) 692-6998.

Call (910) 695-3725 for questions regarding our curriculum programs, applying, testing or registering for classes.
Who Helps Find the Answers?

Many services are available in the Katharine L. Boyd Library.

The Sandhills Community College Learning Resources Department is comprised of the Katharine Boyd Library and the Learning Resources Computer Lab and houses the Hastings Art Gallery and the Barbara Cole Children’s Literature Center.

The Katharine L. Boyd Library provides comfortable, pleasant surroundings for study and leisure reading in a 26,000 square foot building. Library materials are selected to support and supplement academic programs and to encourage use by Community Patrons.

Our collection includes more than 78,000 items and extensive periodical holdings which include subscriptions to local, state, and national newspapers.

Learning Resources provides 24/7-365 access to online databases such as NC LIVE, Credo reference and Opposing Viewpoints. The library’s collection of over 2,000 DVDs contains instructional programs, feature films, documentaries, musicals, classic children’s films and PBS programs. The Learning Resources Computer Lab is a fully staffed student support computer lab and a proctoring center.

Boyd Library is available for use by SCC students, faculty and staff. It is also available to residents of (or those who work in) Moore and Hoke counties who are 18 years or older. A free Community Patron Library Card can be obtained by presenting a picture ID or other proof of residency.

Like so many of the programs and facilities at Sandhills Community College, the Boyd Library has been enhanced by generous support from members of our community. However, there are many areas in the library that are decades old and used by tens of thousands of patrons each year and are in great need of replacement and improvement. We invite the community to join us in helping maintain and improve our library by becoming a Boyd Library Benefactor. To make a gift as a Boyd Benefactor, please mail your contribution to the SCC Foundation, Attn: Germaine Elkins, 3395 Airport Rd, Pinehurst, NC 28374. Feel free to call Germaine with questions (910) 695-3706.

After eleven years of employment at Sandhills Community College, Dean of Learning Resources John Stacey says he still pinches himself that he landed at Sandhills. “There is nothing better than ‘fit,’” he says, “being the right person in the right position at the right time in an organization.”

Originally from Bridgeport, Connecticut, John began his career by earning a bachelor’s degree in education with an emphasis in middle school teaching and went on to garner a master’s degree in education with an emphasis in instructional media and technology. His doctorate is in education with an emphasis in staff training and development. He came to Sandhills after working at the University of Massachusetts in Amherst for 27 years.

In his spare time, John enjoys reading – of course. He is also a talented musician who can play the guitar and carry a tune. Sailing is another of his passions. His ultimate good time is singing and playing his guitar while on his sailboat with a good book nearby.

Brenda Quick is the Circulation Services Supervisor in Boyd Library. She can clearly relate to...
the plight of some of Sandhills’ students. After the closing of the plant where she worked, Brenda became a full-time college student and later a work study student in the library. She was such an outstanding work study student that after graduating in 2003, the library hired her as a full-time employee.

Brenda feels that the key factors that make Sandhills such a special place to work is the people she is able to interact with each day and the leadership of the college.

Judy Hines

Like Brenda, Judy Hines came to Sandhills as a student after the closing of her place of employment. She earned an Associate in Applied Science in Information Systems and came on-board in the Learning Resource Center. As the Supervisor she helps the students with homework, computer questions and helps maintain the computers in Boyd Library. She also proctors exams.

Judy especially enjoys meeting students and being able to help them on a daily basis. She finds that getting to work a bit early, before the students come in, she can make sure everything is working probably. Making a little time for herself helps her get in the right frame of mind for the day.

Judy likes the helpfulness and friendship demonstrated by those who work at Sandhills. “It seems that everyone who works here knows and are concerned about each other,” she said. “It’s nice to realize that so many care, even if you do not see them every day or even work in their area.”

When not at work, Judy relishes being with her children and grandchildren. The beach is one of her most favorite places to relax.

Micky Konold

Hailing from Chicago, Micky Konold agrees with Judy in that its the people who work at the college who make it such a special place. “It’s definitely a family here,” she said. “You always have the support of everyone when you need it.”

After graduating with a degree in mass communications from Northeastern and working in hospital audio visual departments near Chicago, Micky moved to the area a little over twenty years ago. “Now my family in Chicago has a much warmer place as a vacation destination,” she said. “And I still get to go back for Cubs games, the fabulous food, and to visit friends and family, but now I can avoid the harsh winter weather.”

Dr. Patricia Buelt

Coming to the area about the same time as Micky, Patty Buelt grew up a military brat as one of 11 children with an identical twin sister.

Having played “library” as a little girl, Patty went on to earn a Master of Library and Information Science Degree and a Doctor of Education in Educational Leadership with a Specialization in Information Technology.

As with the many other college employees, Patty says she has never worked with so many happy and caring people. “When I first came to work here I was immediately impressed with the dedication to the students as well as community members exhibited by the faculty and staff members.

If you are out and about, you may spot Patty “runalking,” as her daughter calls it. Patty explains that it is a mash-up of running and walking. Of course she loves to read, non-fiction being her favorite, working in her yard and watching British television shows.

Lakota Copeland

Another who speaks highly of the family atmosphere at Sandhills is Lakota Copeland. “The employees at the college support each other through every life event,” she said, “whether it be a promotion, marriage, loss, birth of child or grandchild or even an educational milestones, we’re a family here.”

Lakota works with Judy in the Learning Resources Computer Lab and enjoys being able to assist students in learning how to use the many computer programs and working with them to better their writing assignments. She enjoys watching the students develop throughout the semesters.

Like her other Learning Resource Department cohorts, Lakota enjoys reading in her spare time. She is also an accomplished cook, music enthusiast, and likes to travel with her son. The team she likes most to cheer on is the North Carolina Tar Heels.

Yvette Ausby

Originally from Brooklyn, New York, and having lived in Berkeley, California, Yvette Ausby has always found the library a place of refuge and it has been an integral part of her life.

She loves to help others and see people meet challenges and achieve goals, making her a perfect fit in the Learning Resources Lab at Sandhills.

Enjoying genealogy research over the past 12 years, Yvette researches for herself and others. She loves “walking with the ancestors” as she discovers life stories.

“I have learned that I am an Afro-Antillean – meaning that I descend not only from Africa but from West Indian workers or ‘Silver People’ who immigrated to Panama in order to work on the canal, with deep roots in Moore County.”

When asked what makes Sandhills a special place to work, Yvette unhesitatingly says, “Hands down, it is simply the people.” She also likes being part of something bigger than herself and being able to bring something of value to those she assists each day.

Maggie Dougherty

After a good workout at the gym, Maggie Dougherty is energized for her day as a librarian in the Katharine L. Boyd Library. Originally from Tampa, Maggie graduated from the University of South Florida and earned a Master’s of Library Science from East Carolina University. She began at the college in April.

In addition to exercising, Maggie likes to travel. Lured by her Panamanian heritage, she especially likes to visit Panama. After befriending a family in town for the US Kids World Championship Golf Tournament a few years ago, Maggie and her family host a dinner for the entire Panamanian team, something they have done for the past three years. She now looks forward to the tournament and the team visit each year. Maggie is confident that the team will see their first world champion this year.
Student Support Services Make Life as a College Student a Bit Easier

Curriculum students at Sandhills Community College can avail themselves of a wide variety of services designed to help them start smoothly and perform successfully as college students.

Career Counseling

The Career Center specializes in career development, which helps students identify, plan, and achieve career goals. Information, advice, training, and resources are designed to help them select an educational path that can lead to a financially rewarding and personally satisfying career.

A career library, online exploration programs, career inventories, personality assessments and workshops are offered in the Career Center.

Veteran Support Services

The Office of Veterans Affairs assists veterans, spouses and their children who are using VA educational benefits to take curriculum courses. The office has a veteran's waiting area, which is a comfortable space for students to stop in, relax, chat and enjoy a cup of coffee.

Regular visits are made to campus by the VA Mobile Vet Center as it travels throughout the state. Through this mobile center, veteran students and dependents are assisted with many non-academic support services.

Sandhills is one of five NC community colleges participating in the Veterans Administration's Yellow Ribbon program, which assists qualifying veteran students with college funds to help with the cost of out-of-state tuition.

Each year the college has a free Veterans Day concert in Owens Auditorium. Student Life also honors veterans with a free breakfast and social prior to the holiday. Additionally, the college has an active veteran student club.

Financial Aid

The Office of Financial Aid helps students secure financial resources to pursue post-secondary education. Every effort is made to provide necessary supplemental funding to ensure that no student is denied the opportunity to attend Sandhills Community College because of financial limitations. We help students apply for scholarships, federal and state aid, and work study jobs on campus.

Tutoring

Free one-on-one tutoring is available to our students in the Kelly Tutoring Center. We also offer Math Labs and Writing Labs. Peer tutors, volunteers and instructors help our students become responsible learners by helping them stay on track with coursework, understand assignments and improve their study skills.

Learning Resources Center

The Learning Resources Center is equipped with networked computers and printers for student use. A variety of software is installed on the computers and all provide Internet access.

The Learning Resource Computer Lab is fully staffed with trained and knowledgeable individuals who are ready to answer questions and lend assistance.

The Katharine L. Boyd Library collection includes more than 80,000 items and extensive periodical holdings that include subscriptions to local, state and national newspapers. We have computerized indices to newspaper and periodical articles such as NC LIVE, Books in Print and Opposing Viewpoints. The library's collection of over 2,000 videotapes and DVDs contains instructional programs, feature films, documentaries, musicals, operas, plays, classic children's films and PBS programs.

Personal Counseling

Sandhills Community College offers the assistance of professional counselors who give students the opportunities to explore issues and share concerns about college life.

Our counselors are available to help with academic, personal, mental or social issues that may be interfering with academic success. They are licensed professionals who can respond to concerns in an objective and nonjudgmental manner.

There is no charge for counseling services, and sessions are strictly confidential.

Our counselors can refer students to local providers, if they wish to seek counseling services off campus or long-term therapeutic services are needed.

Disability Services

We have employees who have been designated to coordinate compliance with the non-discrimination requirements of the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973.

Some of the services we are able to provide are sign language interpreters, note takers, scribes, readers and books on tape (when available). We can make testing accommodations or referrals regarding specific disability-related concerns whether they be personal, educational or career related.

Feature

Kenneth Wortham

After graduating from Richmond Senior High School, Kenneth Wortham went to work at the House of Raeford, which later closed its doors two days prior to the birth of his daughter, Kayla. Needing to make a pivotal decision, Kenneth looked into Sandhills. His interest had long been in automobiles, leading him to enroll in the Collision Repair and Refinishing program.

“Our instructors took the time to show us the correct ways to perform tasks while building our confidence in our new skills,” Kenneth said.

“We were given the opportunity to use state of the art equipment and get hands-on training needed to learn the tasks required in the field.”

Kenneth avails himself of many of the support services offered by Sandhills. He has even been able to receive child care assistance for Kayla while he is a student.

He was able to find employment while still in the program.

Kenneth shares that receiving training at Sandhills and landing a good job changed his life for the better. “I went from barely making enough to pay the bills to being able to not have to worry where the money would come from,” he said. “Now I can finally start saving for my child’s future.” He also hopes to be able to purchase a home in the near future.

Within the next few years Kenneth hopes to become an I-CAR certified A-Tech, passing along his expertise to his own apprentice, giving someone else the opportunities he was given. His long-term goal is to open his own collision and body shop.

Sandhills to Host UNC Humanities Seminars

The first in a series of UNC seminars through The Program in the Humanities and Human Values will be held at the college on September 16. “Perspectives of WWII: From the Holocaust to Japanese-American Internment” will be presented by Karen Auerbach and Eric Muller. Auerbach is an Assistant Professor and Stuart E. Eizenstat Fellow in the Department of History at UNC with research focused on the social history of Polish Jews in the 19th and 20th centuries. Muller is the Dan K. Moore Distinguished Professor of Law in Jurisprudence and Ethics and has written extensively regarding Japanese-American internment.

Traditionally, these seminars have been held on the UNC campus. In a desire to expand locations outside of the Chapel Hill area, Sandhills was chosen as a seminar location. Since its inception in 1979, the program has sponsored over 900 seminars, workshops and conferences on a wide range of moral, social and cultural issues.

Register at humanities.unc.edu.
Sandhills Community College promises that no deserving student will be denied a college education because of inability to pay.

Tips for Applying for Financial Aid

The financial aid application process may be lengthy, so it’s important to begin early. Students must complete the online Free Application for Federal Student Aid (FAFSA) for colleges to determine eligibility. The form is available each January and must be completed annually. Deadlines for the FAFSA form and required documentation submission are set each term: fall semester deadline is in early July, spring semester, early December and summer semester is early May. Check the SCC website, or call the SCC Financial Aid Office for specific dates prior to each semester.

Some students may be asked to complete verification, which requires additional documentation be provided to the SCC Financial Aid Office. Documents may include tax return transcripts, child support information and personal identification. The process can take additional time if outside agencies are asked for information.

Keys to a Smooth Process

Begin early. The earlier you begin the application process, the more likely your aid will be processed in a timely manner.

• File your federal taxes as early as possible.
• Allow yourself ample time to request and receive all required additional forms.

Respond promptly to all requests.

• Thoroughly complete all financial aid forms.
• Be patient with the process.
Adam Lachance

Originally from New Hampshire, Adam Lachance joined the Military at age 21 and was stationed at Ft. Bragg. After leaving the military, he was unsure of what career to pursue but knew he needed an education. A ten-year gap in his education made the transition to a college a bit intimidating.

But Adam now enthusiastically declares, “Sandhills made the transition comfortable and stress-free. Every instructor and employee was very personable and went out of his or her way to make sure every student had what they needed to succeed.”

Health and Fitness Science was not a career path Adam had thought to pursue, but after speaking with Program Coordinator Shelby Basinger, his interest was sparked.

Adam felt the professors at Sandhills did a fantastic job preparing him for his career. The faculty’s enthusiasm presenting material, “made it very easy to develop a passion…and take pride in what you do,” Adam recalls.

Currently, Adam is completing his master’s degree in Exercise Physiology with a focus on strength and conditioning at The University of Miami in Coral Gables, Florida. A very high standard is placed on students in the accelerated program at the University and Adam credits his success to the education and support he received while studying at Sandhills. “I have no doubt that Sandhills played a pivotal role in prepping me for further education at a higher level.”

Luckily, an internship with the Miami Dolphins Football team turned into a full-time Sports Performance Assistant position. He now performs research on training methods that will better optimize the athletes performance.

In between classes and work, Adam keeps up on his career by reading the newest research in the field. “I’m happy with where I am currently, but I plan to continue to work my way up the ladder and be the best I can in my field.”

Annie Tuck

Passion for the health and fitness fueled Annie Tuck’s desire to explore education options at Sandhills. “Combining my love of fitness with a career path has always been a dream of mine,” Annie said, “and Sandhills helped make it a reality.”

Originally from New York, Annie relocated to North Carolina after her parents moved to Pinehurst. She now resides in Colorado and works for the University of Colorado creating health and wellness programs for the student population.

Annie counts herself very fortunate to have received beneficial mentorship while living in North Carolina and appreciates the strong foundation she received at Sandhills that served to establish her career.

The strong sense of community and faculty’s desire to see students succeed stands out to Annie as a very special aspect of Sandhills. She credits the Sandhills faculty as the key to her success. “I had an amazing experience with all of my instructors at Sandhills and I am so appreciative of the hard work they put in to motivate and inspire us. They truly care about seeing all students succeed and continuously go above and beyond to help students find the resources they need to be successful.”

“I love mentoring students in the health and wellness field as my teachers did at Sandhills,” Annie reveals.

The best part of her current job is how diverse her day can be. Between helping staff and students facilitate classes to the actual creation of programs and trainings, she says there is never a dull moment and always room to grow.

In her free time, Annie enjoys taking advantage of the innumerable outdoor activities Colorado has to offer.

On the next few pages you will find a list of the curriculum classes we plan to offer for fall semester. The semester begins on August 15 with registration for classes July 18-21 and August 11. Current students can utilize WebAdvisor to register through August 8 as well as on August 11.

Curriculum classes are open to both non-degree and degree-seeking students. If you are taking classes in order to earn a degree, diploma or certificate, you must be at least 16 years old, have a high school diploma and meet the required prerequisite classes.

If you plan to earn a degree, please apply online and make arrangements to take a placement test. This allows you to begin in the proper level class. You do not need to take the SAT or ACT to attend, but we can use qualifying scores to exempt you from the placement test. Additionally, you may be eligible to be exempt from the placement test based on high school coursework or previous college credit.

For course times, locations, instructors and prerequisites please refer to the Course Schedule at www.sandhills.edu.

Fall Semester Begins on August 15 for Curriculum Classes.
Athletics

2015-16 Athletics Report

Men’s Golf
Coach Gus Ulrich
• NJCAA National 8th place finish
• Fourth straight Region X title
• Nick Kroustalis: Region X Medalist and Player of the Year, two time 1st Team All American, NJCAA Superior Academic Award
• Region X Coach of the Year

Volleyball
Coach Alicia Riggan
• Most wins in SCC history with 24-10 (11-3 Region X)
• Tiffany Hicks: Region X Player of the Year
• Kim Ware: NJCAA Exemplary Academic Award

Basketball
Coach Mike Apple
• Opened ‘The Hangar’ with 122-62 win over Methodist JV Nov. 4
• 19-11 overall record
• Tony Harper: JC Smith University Scholarship recipient

Women’s Golf
Coach Herb Pike
• Fourth straight Region X title
• Finished 15th at NJCAA National Tournament, Daytona, FL
• Heather Hancock: NJCAA Exemplary Academic Award
• Region X Coach of the Year

Lady Flyers Volleyball Home Schedule
Come cheer on the team in our new gym!

8/13 Alumni Scrimmage 11 am
8/18 Cape Fear Community College Scrimmage 6 pm

Visit our Athletics Hall of Fame
Second Floor
Dempsey Student Center

2015 Inductees
(L-R) Jim Reid, Jeff Robinson, Francis Warren, Bill Scott, Harvey Safrit, Steve Paschal, Helen Apple, Wayne Williams, and Germann Bostic.

To nominate an individual for the Hall of Fame, please send and email to dentona@sandhills.edu with “HOF Nomination” in the subject line.

Nick Kroustalis (Golf) and Tiffany Hicks (Volleyball)
The Louis Meyer Brown, Sr. Award for Excellence in Athletics 2016
All About Honeybees – Workshop in Beeswax Candle Making
Tuesday, July 19, 10-11:30 am
Bob and Ruth Stolting
Learn the history of honeybees, their plight, social structure and how we can make our environment more bee friendly. Participants will make a set of hand-rolled beeswax tapers. Members $10, Non-members $15.

All About Hardscapes for Your Yard
Monday, July 25, Noon-1 pm
Ken Howell
Lunch & Learn in the gardens. Bring your lunch and we will provide drinks. Free

Growing Fall & Winter Vegetables
Monday, August 22, 1-2 pm
Master Gardener Bruce Fensley
Lunch & Learn in the gardens. Bring your lunch and we will provide drinks. Free

Plein Air Painting in the Gardens
Saturday, September 24, 10 am-3 pm
Enjoy a day in the Gardens and watch local artists painting in our beautiful garden setting. Light refreshments will be served throughout the day at the Ball Visitors Center where additional paintings will be on display and for sale. Proceeds will support the gardens. Free

Pay special tribute to a Sandhills graduate with a brick in The Graduate Walk. Laser-engraved with name, degree and year.

Bricks are available for a $100 contribution to the SCC Alumni Association.

For more information or to purchase a brick, please contact Gayvin Powers at (910) 695-3716 or powersg@sandhills.edu.
Never Miss a Thing

You can earn bachelor's and master's degrees on the Sandhills Community College campus in Pinehurst.

Undergraduate Programs
Business Administration, Nursing, Interdisciplinary Studies & Social Work

Graduate Programs
School Administration, Reading and Elementary Education, Public Administration (Online), Social Work and Business Administration

Rebecca Roberts, Coordinator
156 Kennedy Hall
robertsr@sandhills.edu
(910) 695-3919

Cosmetology Services
by SCC Students
Day and Evening Services • Affordable Prices
Walk-in Basis Only

Chemical services must be assigned by 10 AM, all other services by 11 AM.

Tuesday, Wednesday, and Thursdays beginning at 9 AM.
Shampoos • Cuts • Styles • Treatments • Perms • Color
Ethnic Soft Curl • Straighteners and Relaxers

Wednesday & Thursdays 5-7 PM

Interact with us at SandhillsCC on any of these social media outlets. Contests events, announcements, and lots of fun.

SCC Blood Drives
Blue Hall • 10 am - 2 pm
September 19 & November 21
You can schedule your appointment on the American Red Cross website and use the appointment code “SCC.”

SANDHILLS COMMUNITY COLLEGE

You can earn bachelor's and master's degrees on the Sandhills Community College campus in Pinehurst.

Undergraduate Programs
Business Administration, Nursing, Interdisciplinary Studies & Social Work

Graduate Programs
School Administration, Reading and Elementary Education, Public Administration (Online), Social Work and Business Administration

Rebecca Roberts, Coordinator
156 Kennedy Hall
robertsr@sandhills.edu
(910) 695-3919

Continuing Education
FALL SEMESTER CLASSES
The Continuing Education Career Training program is a perfect local resource for adult learners who want to improve workplace skills, achieve job certification or recertification, improve employment marketability or explore new opportunities.

Career Training courses meet the criteria for Continuing Education Units (CEUs). All Career Training courses are Lifelong Learning Institute eligible.

For additional information, contact Lori Degre at (910) 695-3939 or degrel@sandhills.edu.

### HEALTH CARE OCCUPATIONS

#### Activity Director
This course is designed to provide basic training to individuals desiring to become an Activity Director in a healthcare related setting, such as long term care or assisted living facilities or adult care homes. This course follows the state approved course outline. Students successfully completing the entire 85 hours of training (60 hours in class and 25 practical experience hours) will receive a Certificate of Completion and can use this course as a step toward a national certification for Activity Coordinators. Background check and drug screening is required by clinical sites at an additional cost to the student.

CEU: 8.5
$185+text+background check

**Pinehurst Campus**
207 Van Dusen Hall
Instructor: Kim Bazemore
3304 Sept 13 – Nov 17 TTH 6-9pm

---

#### EKG Technician
Learn the required skills to become a certified EKG Technician and work in a variety of healthcare settings. Topics include cardiac anatomy and physiology, cardiac cycle, EKG strip analysis, 12 lead EKG, and EKG procedures.

CEU: 7.8
$185.00+text

**Pinehurst Campus**
104 Van Dusen Hall
Instructor: Amber Marley
3306 Sept 7–Dec 7 MW 6-9:00pm

**Sandhills Hoke Center**
109 Johnson Hall
Instructor: Cathy Hester
3307 Sept 6–Dec 6 TTH 6-9:00pm

---

#### Nurse Aide, Level 1
This state-certified program will prepare students for work under the supervision of licensed healthcare professionals in performing hands-on patient care. The course includes preparation for the State Board examination for NC NA Registry listing. Prerequisites: Please contact Jenell Powell at 695-3965 for program information.

CEU: 20.4
$205.50+course pack

**St. Joseph of the Pines**
E4 Pine Knoll
Instructor: Dorothy McFadden
3311 Aug 15–Dec 12
MW 8:30am-2pm
Lab 2–4pm
Clinical 7:30am-1:30pm

**Sandhills Hoke Center**
129 Upchurch Hall
Instructor: Sharon Parter
3312 Aug 16–Dec 13
TTH 4–9:30pm
Lab 2–4pm
Clinical 3:30–9:30pm

---

#### Nurse Aide, Level 1 Refresher
This forty-hour program is designed for individuals whose listing has expired on the NC Nurse Aide I Registry. Eligible individuals must have completed a State-Approved Nurse Aide I program and have a certificate or transcript supporting completion. This program is also designed for individuals with a state-recognized or military health care credential. Please contact Jenell Powell at 695-3965 for enrollment approval.

CEU: 4.0
$130.00

(910) 695-3980
The Trades Program offers high-tech, in-demand career training through state-of-the-art equipment designed to meet the growing demand for skilled workers. Through partnerships with local employers, the Trades Program aligns class offerings and curriculum to provide employers a pipeline of skilled workers with job-specific skills.

Classes prepare students to achieve national certifications from institutes such as the National Center for Construction Education Research (NCCER), Manufacturers’ Skills Standards Council (MSSC), Electronic Technicians’ Association (ETA), and the National Institute for Metalworking Skills (NIMS). Class content focuses on safety and fundamental job skills to prepare students for gainful employment. Job placement assistance and career coaching is offered to students who successfully complete the course.

Opportunities are also available for high school students. Please see your guidance counselor for more information regarding the high school track.

For more information, contact Trades Coordinator Belinda McFerrin at (910) 246-4117 or mcferrinb@sandhills.edu.

Pathways to High-Tech Trades Careers

More than $2.2m has been invested into Sandhills Community College’s (SCC) high-tech trades program through generous partnerships with local manufacturers like Unilever, Cody, Ingersoll Rand, and Eaton and through various grant opportunities from The Palmer Foundation, The Golden Leaf Foundation, Duke Energy and Victor Technologies.

Along with classes in electrical, welding and Certified Production Technician (CPT), Continuing Education will expand offerings late this summer in the newly renovated Palmer Trades Center to include basic machining, industrial electrical and electronics, and basic programmable logic controls. All programs provide an opportunity to achieve nationally recognized credentialing and lead to well-paying employment opportunities.

SCC’s Trades Programs provide career training pathways for students looking for hands-on job skills training that can be completed in less time, and in most cases, less money than traditional undergraduate programs.

Educational opportunities for trades careers extend beyond continuing education classes. This fall the college will introduce a new two-year associate degree program in Industrial Systems Technology. Credits earned in continuing education classes can be applied toward a degree. This provides students multiple entry points to earn credentials from high school, to college, to work and then back to school again. Many employers often pay for their employees to return to school for additional training.

“These exciting high-tech programs provide viable job opportunities for students through accelerated courses taught by experienced instructors on innovative equipment. Successful students secure desirable jobs from local manufacturers,” said Andi Korte, SCC’s Vice President for Workforce Development and Continuing Education.

Pathway to Success

Michael Morris, featured on cover of this magazine, started his journey in the trades program by taking electrical and welding classes while in high school as part of the NC Career and College Promise (CCP) program. After graduation, Morris successfully completed certifications for electrical and welding through continuing education, and shortly thereafter, accepted an electrical helper position with a local employer and is now gainfully employed with a respectable income.

Trades Program Coordinator, Belinda McFerrin, takes great pride in the program and personally works with each student to ensure their success. “Reaching out to students through email, phone calls and class visits helps me keep track of each student’s progress, and also, lets me know what areas they may need help with in order to successfully complete the program,” said McFerrin. “I work closely with the NCWorks Career Center in Aberdeen, the Workforce Innovation and Opportunity Act (WIOA), and other job placement resources to assist our students in securing gainful employment opportunities. Morris is just one example of our student success stories. Helping our students dramatically change their lives for the better is what it’s all about,” continued McFerrin.

Passing the Baton

Dreams do come true, especially for Alan Duncan, Continuing Education Dean of Business and Industry Services. Duncan, who is seeing his dream of a thriving trades program come alive, shares mixed emotions this summer as he looks forward to retirement after more than 21 years. “I am pleased and excited about the foundations that have been put in place through the support of the college and a number of outside grants that have been successfully secured to support the expansion of our trades program,” stated Duncan. “This has been a long-time in the making, and I’m pleased Sandhills will be able to provide manufacturers a pipeline of well-qualified applicants,” continued Duncan.

In preparation for Duncan’s retirement, Ronnie Patton joined continuing education in January 2016 to carry on the program’s expansion. As a former Unilever employee, Patton brings over 41 years of technical and professional knowledge to the program. “I will focus my energy into launching an industrial maintenance program, implementing the basic machining and automation training programs, and being responsive to our local business and industry needs,” states Patton.

The future is bright for students engaged in Trades Programs. Jobs are in high demand and Sandhills is positioned to provide a pipeline of well-qualified, emerging applicants to bridge the gap in the workforce.
NCCER Electrical Level 1
Using the National Center for Construction Education and Research (NCCER) curriculum, students will learn the basic theory and practice of the electrical trade. Offered in partnership with the Sandhills Association of Electrical Contractors, this course is taught by NCCER-certified trainers and overseen by a master NCCER trainer. After successful completion, students are qualified to receive the NCCER Electrician Level 1 Certification, inclusion on the NCCER National Registry for electricians, and entry-level employment.

Trades Education

Certified Production Technician (CPT)
Jack Alvarado’s journey has been a long and arduous one, taking him from heroic military service to homelessness to employment with a bright and hopeful future.

As a US Army veteran who completed two tours during Operation Iraqi Freedom, Alvarado had a difficult time transitioning to civilian life and found himself homeless and living out of his car. He was able to earn a commercial driver’s license from a for-profit college and found a job driving trucks.

Having long had an interest in welding, he considered going back to college. He came to Sandhills and enrolled in the Welding I course. Noting his exemplary skill and perfect attendance, his instructor encouraged him to apply for a scholarship that awards successful and determined Continuing Education students.

Alvarado landed a welding job at a prominent welding company shortly after enrolling in Welding II where he works to this day.

Jack speaks very highly of the Continuing Education Trades programs. “I had very good experiences at Sandhills,” he said. “The instructors were very kind and willing to assist.”

---

**Basic Programmable Logic Controls (PLC)**

The Basic PLC course is the second course of three classes in the SCC Automated Technology Certificate program. This class trains students to explain how a programmable logic control system operates (PLC), understand basic logic operations, create a PLC program, design complex logic operations, master storage function applications, understand and implement the principal of program flow control, carry out analog processing, and solve complex text assignments.

Prerequisites: Basic knowledge of control engineering (basic logical operations, flip-flops, timers, counters, process control, function plans). Basic knowledge of programming with RSLogix 5000 Rockwell Programming Software.

$185+text

**Basic Machining**

Basic Machining is designed to meet entry-level requirements for on-the-job skills. The class instructs students on the operation of drill presses, metal-cutting saws, lathes, milling machines, and grinders. Students will also produce precision parts utilizing appropriate speeds, feeds, and tooling. Successful students may qualify to take NIMS Certification test.

$185+$50 materials

**Industrial Electrical and Electronics**

The Industrial Electrical and Electronics class is the first course of a series of three classes to attain a local SCC Automated Technology Certificate. This class offers training according to ETA competencies in basic AC principles, DC principals and application, digital concepts, and fundamental electronic applications. Upon successful completion, students will be able to sit for ETA certification assessments and take the next course in the Automated Technology Program, Programmable Logic Controls.

**COLLEGE CREDIT/CURRICULUM COURSES TUITION**

The North Carolina General Assembly sets tuition rates for in-state and out-of-state residents. If you do not pay the tuition and fees required for your classes by the last day to pay found on the Academic Calendar, your registration is not complete. In addition, the classes for which you have registered will be dropped, and you will need to register again. We accept cash, checks, money orders, credit cards, and debit cards. Payment is accepted online through WebAdvisor, in person, via a drop box located outside the Business Office, and by mail.

**COLLEGE CREDIT/CURRICULUM REFUNDS**

A preregistered curriculum student who officially drops one or more classes prior to the first day of the semester will be eligible for a one-hundred percent tuition refund. The student activity and technology fees will also be refunded if the student officially drops all classes prior to the first day of the semester. Thereafter, a refund of seventy-five percent of only the tuition will be made through the ten percent date of the semester. Students do not qualify for a refund of fees after the one hundred percent date. All tuition will be refunded if a class is canceled. Refunds will be processed within four weeks of the ten percent date.

**CONTINUING EDUCATION COURSES COSTS**

Effective July 1, 2013 the following fee schedule will be used to determine course fees. This does not include the technology fee for each course with the exception of College & Career Readiness. A limited number of scholarships may be available.

3011 Sep 6-Nov 22  T  1:30-3pm

**The Cinematic President**
From Washington to Bush (with Obama soon coming to a theatre near you!), cinema has preserved, pilloried, and lampooned the highest office in the land. In this season of election, let’s take a look back and how Hollywood depicts—in fictionally funny and factually flawed forms—our Commander in Chief.
Instructor: Ron Layne
Clement Dining Room, Dempsey Center
$25
3012 Oct 17-Nov 14  M  2-4:30pm

**The Rise & Fall of Pop Music & Rock ‘n’ Roll**
After World War II, Pop music ruled radio airwaves and jukeboxes. Johnny Ray, Jo Stafford, Dean Martin, and other artists dominated Your Hit Parade until Rock ‘n’ Roll challenged that dominance in the mid-1950s. Through music and video, Dr. John Turner presents artists and songs we love, putting them in context by examining their impact on sexual attitudes, family, segregation/integration, the economy and religion. It’s a fun time of music, videos and stories exploring the singers and songs of the late 1940s, 1950s and 1960s.
Instructor: Dr. John Turner
Clement Dining Room, Dempsey Center
$20

3027 Sep 13 T 1-2:30pm

Introduction to Islam in the Modern World
This 16-hour course introduces basic concepts of the religion of Islam and the ideology of Islamism. Topics include Islamic history, The Quran, the breadth of Muslim cultures and civilizations, and the ideologies pronounced by Islamists. Participants should be able to delineate the differences between Islam, Islamist ideology, and violent radical Islamist (VRI) groups like ISIS and Al Qaeda, understand the Quranic-based tenets of the religion of Islam, identify the foundations of Islamism and the radical forms in use today, and formulate solutions for countering VRIs. No class Sept. 21, Oct. 12 & 26.
Instructor: Jason Criss Howk, Major (Retired) U.S. Army Foreign Area Officer 109 Van Dusen Hall
$45
3028 Sep 7-Nov 16 W 2-4pm

The Historicity of the Resurrection of Jesus
This course will investigate the resurrection of Jesus from a historical, or forensic, point of view. It covers principles that historians use to evaluate available evidence and weigh the probability of possible explanations. Course will not cover factors about Jesus, such as his teaching, which may be important for a final personal evaluation of the resurrection. Recommended book: The Case for the Resurrection of Jesus, by G. Habermas and M. Licona, chapters 2-8. Facilitators: Jim Boyd and Ken Carlson
201 Van Dusen Hall
$15
3029 Sep 8-22 Th 1-2:30pm

French Painting After Impressionism
After the last Impressionist show in 1886, members of the group abandoned their mission, to paint the scene before them in brilliant color and exuberant brush stroke, and instead found inspiration in exploring their subjective worlds of dreams and visions. Some joined the Symbolist poets to cultivate their own sensations and to create individual styles of expression, which Gauguin described as abstractions “derived from nature while dreaming before it.” Others like Pissarro were drawn to rural and primitive communities, believing that life in the countryside was pure and harmonious, in contrast to the materialism of industrial society. Learn how social and political forces in the 1890s hastened divisions among old comrades.
Instructor: Stan Williams
109 Van Dusen Hall
$20
3030 Nov 1-15 T 1-2:30pm

Islam: Past, Present & Future
This lecture explores the life and times of the Prophet Mohammed and explains why Islam is more than a religion, but an ideology, and why it’s been at odds with Christianity and Judaism since the 600s. Learn how, when and why Islam took root and has prospered in the United States and around the world despite many radical atrocities. Further explained is the appeal of Islam versus Christianity and why Islam is the fastest growing religion in the world. Migration and demographic trends and conversations the instructor has had with Muslims in nearly 80 countries will show what we can expect from Islam in the future. Mr. Taft was the deputy assistant secretary for international operations in the Clinton Administration, a former trade negotiator between Israel and Egypt after the Israeli-Egyptian War in the early 1980s, and a consultant to Middle East and African governments.
Instructor: Robert Taft

The mission of the Small Business Center at Sandhills Community College is to increase the success rate and numbers of viable small businesses in North Carolina by providing high quality, readily accessible assistance to prospective and existing small business owners that will lead to job creation and retention.

The NC Community College’s Small Business Center Network assists in starting an average of more than 770 businesses each year. Small Business Centers have an economic impact in 90% of all NC Counties each year, helping to create and retain nearly 3,600 jobs annually.

**Seminars**
The Small Business Center offers free seminars targeted for the needs of small business owners and startups. Register for free seminars by visiting our website at sbc.sandhills.edu, calling (910) 695-3980 or emailing williamslo@sandhills.edu.

**Resources**
Access for necessary research is available for your use. We have access to the NC Live database leading you to a demographic data profiler called Simply Map to assist you in defining your market. We also have information on area businesses and numerous books and magazines and will assist you in obtaining a free Boyd Library membership for additional resources.

**Counseling**
If you would like information about starting a business or to discuss specific needs regarding your business, please call Lori Williams at (910) 695-3938 or email williamslo@sandhills.edu. You can also visit our website at sbc.sandhills.edu and click on the “Request for Counseling” link and schedule an appointment by using the “Book Your Appointment” link.
The Small Business Center

COMING SOON

Are you a farmer, value-added processor or food service professional interested in starting or growing an agribusiness in rural North Carolina? In partnership with USDA, the Good Food Sandhills Initiative, the NC Rural Center and the Small Business Center of Sandhills Community College invite applicants in the region to apply for the Rural Food Business Assistance Project. If your application is approved, this project will provide you with business coaching, scholarships for relevant trainings and classes, and access to capital, all with the goal of helping you to start or grow a successful agribusiness. Applications will be available in early August.

sbc.sandhills.edu (910) 695-3938 williamslo@sandhills.edu
Google Series Part I: Don’t Miss Out! Explore Google Resources for Small Business

Streamline your business while establishing your brand using Google. In this seminar we will focus on highlighting the benefits of Google Apps that are essential to small business owners. Many of these apps are simple, low cost tools that help with the organization, communication, and management of the day to day operations of a company. Participants leave with a better understanding of the apps that Google has to offer and how to apply them to their business.

Focus: Gmail, Google Calendar, Google Docs, Google Drive, Google Translate, Google Voice, Google Hangouts, Google Mobile, Google Keep, and Google My Business
Facilitator: C. Renae Simon
105 Van Dusen Hall

Free 
November 8 
4-6 pm

Google Series Part II: Get Found Online With Google-Marketing Techniques for Your Small Business

Whether you are establishing an online presence for your business, trying to drive customers to your website, looking to increase sales, or trying to generate awareness for your small business, Google has an app to help you. This seminar focuses on providing you with the tools to establish your business on the #1 ranked search engine in the US. Designed with practicality in mind, we will explore these applications, how they work, and how you can incorporate them into your marketing plan for your business. Participants will be given worksheets to help them plan their strategies using these tools and have time to work on them in class with the assistance of the instructor.

Focus: Google My Business, Google Sites, Google AdWords, Google Keyword Planner, Google Analytics, Google AdSense, Google Custom Search, YouTube, and Nonprofit Ad Grants
Facilitator: C. Renae Simon
105 Van Dusen Hall

Fifteen Common Mistakes That Will Undermine Any Business

Lessons Learned: Advice Every Small Business Owner Needs

Thank you for sponsoring last night’s presentation by Mike Gorenflo. It was so informative and he was good at explaining issues.”
Never Meet a Stranger: Guerrilla Marketing for Networking Events, Trade Shows and Expos

Trade shows, expos and networking events can be excellent ways to attract business...if you understand that they are netWORKing events. They are not net-eating, net-visitor, net-standing-around-waiting-for-someone-to-talk-to-you-events. These events can establish your credibility, help you meet new prospects, network with current customers and allies, and even practice new sales techniques. Event visitors come specifically because of their connection to your market so you are meeting fewer suspects and more prospects. However, shows and exhibits can a terrible waste of time and money if you do not create a workable plan and execute it.

Planning Your Future for Small Business Owners

Can I afford a match for my employees? What are tax advantages? How much can I save? These and many more questions need to be on the mind of small business owners at the time of business plan preparation. Come learn more about these scenarios to plan for your future.

Facilitator: Tom Velevis and Michael White
102 Van Dusen Hall
Free September 29 4-6 pm

Why Successful Businesses Are Successful

Too often we hear that “luck” is the main reason a business fails or succeeds. This could not be further from the truth. Successful businesses share common traits and luck is not one of them. After researching hundreds of small businesses in North Carolina, South Carolina and Virginia for the past nine years, the presenter created this seminar revealing common traits that successful small businesses possess. Small businesses with these traits have shown growth and produced handsome profits for their owners. This seminar is designed for the individual thinking of opening a new business and existing entrepreneurs who seek the inside secrets of how to make their business better. Opening and operating a small business involves a huge investment of time, talent and resources. Insure the success of your business and your personal success by planning to attend this informative and enlightening seminar.

Facilitator: Bob Moore
102 Van Dusen Hall
Free October 6 6-9 pm

How to Write a Business Plan

The most important task in starting a new business or growing an existing business is the business plan. No lender will discuss financing without one. Without a well thought-out, written business plan, many small businesses may be doomed to failure. This seminar is designed to explain exactly what goes in to a business plan, why, and how to properly manage from it. For those who decide to continue, your Community College Small Business Center counselor will work you on a one-on-one basis until the plan is complete.

Facilitator: Ed Ormsby
102 Van Dusen Hall

Attaining Business Excellence

Business excellence occurs when a business consistently executes effective and strategic steps that lead to goal achievement. A business' success is dependent on the leader understanding that to attain true excellence, he/she must include management, employees, customers, clients and supplier interests in this quest. This seminar is designed to show business owners how other successful firms successfully attain excellence in their organizations.
