Are you an active duty spouse?

34+ of Our Programs Qualify for the MyCAA Scholarship Program

Active duty spouses may be eligible to receive up to $4,000 to pursue a license, certification or associate degree. Service member must be Active Duty with a pay grade of E-1 to E-5, O-1, O2, W-1 or W-2.

Call 1-800-342-9647 Monday-Friday 8 am-10 pm, Saturday 10 am-5 pm. A Career Counselor will help you get started in obtaining funds to study at Sandhills.

We are happy to offer a docent guided tour for ten or more participants. Please call (910) 695-3882 at least two weeks prior.

SANDHILLS HORTICULTURAL GARDENS
14 Themed Gardens on 32 Acres
Picnic Area
Open Dawn to Dusk Year-Round

 Designed and maintained by students and faculty of our Landscape Gardening program.
On our cover is Steven and Mia Bowden. Steven is one of the first students to register for our new aviation program.

Fulfilling a lifelong dream of flying as a profession, Steven is a veteran of both the US Army and Air Force with 27 years of consecutive military service. The couple now calls Southern Pines home. “I’ve lived in many places, and this community is the best I’ve ever seen. The quality of life here is top-notch. I’m originally from North Carolina, so it’s nice to be back in my home state.”

His wife, Mia, avails herself of the Continuing Education Small Business Center offerings. She owns M.K. Schwarz where she offers expert, European-style tailoring and custom clothing creations. “We produce everyday garments, prom and formal dresses, combat and tactical gear, dry suits, commercial diving harnesses, uniforms, movie props and costumes, and furs. We offer antique garment restoration, styling for commercials and film, and disability aids.”

Read more about the new aviation program on page 5 and the Small Business Center on page 40.

Also in this issue, we feature the Student Services Department, the team that serves our curriculum students from application to graduation. In another article, we show how the college helps students determine the career they are best suited for and help them secure employment after earning their credential. We also brag about our Athletic Director and the 2017-18 Men’s Basketball team.

Our special events this summer can be found on the inside front cover. Make plans to join us, especially for our summer outdoor Jazz Band shows!

Who Assists SCC Curriculum Students?

The Team That Serves SCC Students from Application to Graduation

From first learning about the programs and services we offer to walking across the stage at commencement, the Student Services Division works with students throughout their entire time at Sandhills.

The Student Services Division is made up of Marketing and Public Relations, Recruiting, Student Success, Admissions, Financial Aid, Veterans Affairs, Student Life, Records and Registration, Counseling, and Career Development.

“We have a great team that is passionate about serving our students,” said Vice President of Student Services Kellie Shoemake.

“Each of them lives out the core value of helpfulness in their everyday work and personal lives. It is obvious they love what they do.”

Ryan Riggan

If he could tell a high school student just one thing, it would be to take four classes at Sandhills while they are still in high school. Why? Because in doing so, it would qualify them for two full tuition-free years of college at Sandhills. “There are steps to qualifying for the Sandhills Promise,” he said, “and even if you don’t know what you want to major in when you get to college, you can have prerequisite classes under your belt.”

An Aberdeen native, a graduate of Pinecrest High School, and a former Sandhills student himself, Ryan taught in NC public schools for 11 years after graduating from Appalachian State University.

Ryan has been the Director of Recruiting at the college for just over a year. “Sandhills is a great place to work because everyone takes pride in doing their jobs,” he said. “In recruiting students, I firmly believe that if someone visits our campus, they will decide to attend college here. When you see how well maintained everything is, when you get to see how friendly everyone is, and when you get to experience how helpful everyone is, you can truly understand how great a place this is. From the moment I walked onto the campus, I could tell how much everyone wanted to be here.”

Ryan’s wife, Alicia, works at the college as well. She is a Physical Education Instructor and the Women’s Volleyball Coach. The two have a six-year-old daughter, Brooklyn.

LINDSEY says. “I don’t seem
to have a typical day because
something new always comes
my way. My duties include com-
pleting and submitting federal
and state reports, reviewing and
implementing federal and state
regulations, overseeing the overall
functions of federal and state
financial aid, scholarships, and
veterans affairs areas.

Lindsey’s husband, DJ, is the
Dean of Student Services at the
college and they stay busy with
a five-year-old daughter and a
six-year-old son. Lindsey says she
lives for summer when her family
gets to enjoy the beach together.

Originally from Enfield, NC,
Lindsey attended Peace College
where she earned a Bachelor of
Arts in English. She went on to
to earn a Master of Arts in English
from East Carolina University.

After 12 years working in Student
Services at Sandhills, Davis Smith
has a pretty good handle on what
it takes to be a successful college
student. Beginning as an Advising
Associate, he is now the Director
of Student Success.

Davis graduated from Lee County
Senior High School in Sanford
and studied Political Science at
UNC-Wilmington. As a work-
study student in Student Services
while in college, he became
interested in working in student
development as a career. His days
now vary from spending all day
working face-to-face with stu-
dents to a day filled with meet-
ings – Davis loves the diversity of his
days. He says that if he has a bad
day, he knows tomorrow will
probably be completely different.

Davis says that the residents of
the Sandhills area make working
at the college great. “We serve all
people groups, from adults who
want to learn to read, to high
school students who want to start
close to home before transferring,
to community individuals who
seek a rich cultural experience,
and all types in between. Being
able to come to work and interact
with all sorts of people, and
then see them off campus, in
the “real world,” really creates
an atmosphere of community,”
remarked Davis.

Look twice if you see a
paddleboarder out on the
Southern Pines Reservoir Lake.
It may be Davis. “Nothing beats
saying, “Hello,” to all the turtles
in the Reservoir Lake on a nice
sunny day!” he said.

Like many in the area, the mil-
itary brought Gwen Russell to our
part of the state. Originally from
Baltimore, MD, she has been at
the college for almost ten years.

A community college graduate
herself, Gwen attended Baltimore
Community College and later
Morgan State University, where
she earned a BA in English.
She received a Master of Arts
in Human Resources and
Development from Webster
University.

As the Director of Career
Development Services, Gwen
works with students to help them
determine career options suited
to their interests and strengths
and sets them on the path to
achieve such a profession. She
finds it most fulfilling to see the
progress students make while at
SCC and helping them look their
very best on a résumé.

In her downtime, Gwen enjoys live
theatre, movies, and reading. She
also enjoys traveling. She lived
in Germany for five years and
fondly recalls her visits to Paris,
Amsterdam, the Black Forest,
and Munich. She has two adult
children, a daughter who gradu-
ated from UNC Chapel Hill and a
son who graduated from Rutgers
University.

“Sandhills is a phenomenal place
to work,” says Shenika Ward.
“What sets it apart is its consis-
tent theme of helpfulness. The
people here live and breathe
helpfulness.”

As the Director of Student Life,
Shenika is daily exhibiting the
core value of helpfulness herself.
Whether it is making others aware
of Student Life activities, assisting
Student Government Association
members, managing the Game
Room, or helping students begin
clubs, she supports the “Engage
part of the college’s new tagline.

Shenika and her college sweet-
heart husband have two children,
a boy and a girl, ages three and
five. Because of her daughter’s
autism diagnosis, she is an advo-
cate for inclusion and equity.

“What has been most encour-
gaging since beginning at the college
two years ago,” she said, “is how
important family is to the admin-
istration. I’ve worked at places
where employees are always
expected to put work before
family. The administration at
Sandhills cares deeply about each
of us as individuals.”

Shenika is originally from
Burlington, NC. She holds a
Bachelor of Science in Psychology
from Fayetteville State University
and a Master of Arts in Education
from UNC-Pembroke.
After attending Randolph Community College in Asheboro, Randy Foster transferred to UNC-Greensboro for a BA in Political Science and went on to earn graduate degrees in Theology, Counseling, and Psychology. He is a Licensed Professional Counselor.

For over 17 years Randy has worked as a Personal Counselor at Sandhills. He confidentially consults with students, faculty, and staff, helping them manage the many demands on their lives. He offers workshops, visits classrooms, and assists with events.

“Sandhills stresses academic excellence,” said Randy, “and provides many services to students, faculty, and staff, encouraging us to achieve our very best. Sandhills also stresses that we are a community of scholars and professionals whose energies are focused on aiding others in the achievement of life goals.”

Randy enjoys reading, especially books and articles on religion and spirituality. He and his wife, Robin have two children and four grandchildren. “We like to travel to new places,” he said, “especially if they are on an island with a great beach. We host a family beach trip each summer.”

Rosa McAllister-McRae has been taking college courses in one fashion or the other since the early 80s. She studied drama at Kingsboro Community College in Brooklin, NY and after coming back to Raeford to assist an ailing parent, she studied at Sandhills and went on to earn a BS in Psychology from Fayetteville State University. She received a master’s in Counseling from Webster University and an Education Specialist Degree from Wingate University.

Rosa has worked at the college for over 23 years. “The best thing about working at Sandhills is being able to help students achieve their goals,” she said.

Rosa works at the Pinehurst campus and the Hoke Center in Raeford. She assists new students as an advisor, helps them apply for financial aid, offers personal counseling, helps students navigate the transfer process and works with international students.

Rosa and her husband have two children and two grandchildren. She serves on the Hoke County Board of Education.

Having a golfer for a father and an equestrian for a mother made the Sandhills region a natural vacation destination for Jean Blue’s family. They vacationed here from Michigan, and Jean moved to the area in the early 80’s when she married a Southern Pines native.

Before coming to Sandhills, Jean had a 20-year career in veterinary medicine. In her 14 years at the college, she has worked in the Administration side of the house and now loves the challenges of being the Registrar in Student Services. “We are a busy department, she said. “I am fortunate to have a dedicated staff that keeps us on track.

“Sandhills is such a fulfilling place to work, and at the end of the day, we know we make a difference in our student’s lives. We support each other and our students on a daily basis — that kind of dedication is unique. We work super hard in Student Services, but we also fit in a lot of fun and laughter.”

Naturally, you would expect a person who once worked in the veterinary field to have a few pets. Jean is the adoptive mother of three dogs and three cats. She and her husband love the water and spend most summer weekends on their sailboat.

As the Director of Marketing and Public Relations, Karen handles all promotions and advertising for Sandhills. “My job is so varied; I look forward to what each day will hold,” she said. “I plan all of our marketing, handle all of our graphic design and print production, write press releases, write and produce radio spots and promo videos, design and place our social media and print ads, handle our photography — pretty much anything you see promoting the college, except the website, has come through my hands.”

Her education and work experiences uniquely prepared Karen for her position. She holds a BS in Graphic Design and a BSBA in Marketing from Appalachian State University. “I have been doing graphic arts for so long I remember when cut and paste meant an X-Acto knife and rubber cement,” she joked. Karen has worked for the college for 12 years.

“My husband and I entered an entirely new phase of life in the past year,” she said. “Our son took a promotion with Cisco and moved to Denver, our daughter (my best friend) moved to Nevada, and I began caring for my elderly mother in our home.”

As she was preparing the class schedule a few years ago, Karen noticed a Continuing Education oil painting class would be offered. Having not painted with oils since junior high, she signed up and has rediscovered her love of painting. “I’m very much a realistic painter,” Karen said, “I often wish I could loosen up and paint more like the impressionists.”

Karen is the Advisor for the CRU club at Sandhills and serves on the Women’s Ministry at Christ Community Church. (And yes, I had to write this about myself and it was a bit uncomfortable.)
Sandhills Community College will offer three new Associate in Applied Science degree programs beginning Fall Semester 2018. Aviation Management, Professional Pilot and Fire Protection Technology will bring the number of degrees offered at Sandhills to 42.

Aviation Programs

Sandhills Community College will offer two aviation programs: Aviation Management and Professional Pilot. The creation of the aviation programs were brought to pass through conversations between the Moore County Airport Authority Board and the college regarding the regional and national need for trained commercial pilots.

Sandhills is the fourth North Carolina community college to offer commercial pilot training. Student’s first semester will be spent on campus taking general education classes along with introductory aviation courses. Flight training will begin in the second semester.

The Aviation Management and Professional Pilot Technology programs will prepare students for a variety of aviation and aviation-related careers including the commercial airlines, general aviation, the aerospace industry, the military, and state and federal aviation organizations.

Coursework will include fundamentals of flight, aerodynamics, aircraft performance, meteorology, navigation, federal regulations, aviation management, and instrument and commercial ground training, flight and simulator training, and entrepreneurship or business management training.

Sandhills Community College will allow entry points into the programs based on prior certifications earned as a hobbyist or through military training.

The college will award an Associate in Applied Science in Aviation Management degree and an Associate in Applied Science in Career Pilot degree.

Since 10 percent of the Sandhills student body are active duty military, veterans or dependents, Sandhills is in the process of applying for Part 141 designation from the FAA to qualify students for the use of VA funds. If the application process goes as anticipated, VA students are going to be able to use their benefits toward program costs fall semester.

Students can save a great deal of money by beginning at Sandhills. If a bachelor’s degree is desired, the college has long-established relationships with four-year schools allowing students to move into bachelor programs with more transfer academic credits and receive the degree sooner.

To learn more about these exciting new programs, contact Robert Brannum at brannumr@sandhills.edu.

Fire Protection Program

The new Fire Protection Technology program is designed to provide students with knowledge and skills in the technical, managerial, and leadership areas necessary for advancement within the fire protection community and related firefighting industries, and to provide currently employed firefighters with knowledge and skills often required for promotional consideration.

Coursework will include diverse fire protection subject areas, including fire prevention and safety, public education, building construction, fire ground strategies and tactics, and local government finance and laws, as they apply to emergency services management. Emphasis includes understanding fire characteristics and the structural consequences of fire; risk assessment and management; and relevant research, communications, and leadership methodologies.

The college will award an Associate in Applied Science in Fire Protection Technology degree.

Employment opportunities exist with fire departments, governmental agencies, industrial firms, insurance rating organizations, and educational organizations.

This program offers many courses online or in a hybrid format to accommodate employed students and/or those with family responsibilities.

Sandhills Community College will offer credit for certifications earned through the Continuing Education Public Safety Fire Academy.
Helping Students Choose the Best Career and Land the Ideal Job

North Carolina community colleges typically have two divisions. One side of the house is Curriculum. These are college-credit courses and programs that can lead to a degree, diploma, or certificate. Continuing Education is much broader, serving students who need a high school diploma, refresher courses to begin college, or a short-term career training credential. It includes professional and workforce development, public safety classes, the Small Business Center, online ed2go courses, and personal enrichment classes.

Sandhills has personnel dedicated to assisting students to determine an educational plan and securing employment, whether they are in Curriculum programs or take Continuing Education courses.

The Career Center: Serving our Curriculum Students

The SCC Career Center, under the direction of Gwen Russell, specializes in career development to help prospective and current Curriculum students identify, plan, and achieve career goals. Information, advice, training, and resources are designed to help them select an educational path that can lead to a financially rewarding and personally satisfying career.

The Career Center offers a career library, online exploration programs, career inventories, personality assessments, and workshops.

Gwen assists students or graduates in developing a resume, write a compelling cover letter, and will offer a mock interview to give the confidence needed for a job search. She also helps current students find part-time employment.

Gwen holds a Health Sciences Career Fair each November and an all-programs Career Fair every March where local employers come to interview and hire students. A Career Clothes Closet is organized each November and February. Faculty, staff, and community individuals donate professional attire and students can choose clothing for interviews.

Students apply to serve as Career Ambassadors and these select students assist Gwen with special events and serve their fellow students in the Career Center.

Not only is The Career Center available for prospective and current students, but those who have graduated within the past five years from a curriculum program can also avail themselves of services.

Workforce Continuing Education Services: Serving our Community

As Director of Continuing Education Student Success Initiatives, Nicole Worley works to develop partnerships and educational programs to connect students with the necessary training to reach their employment goals and meet local industry needs.

By partnering with employers to provide short-term workforce training and certifications, Continuing Education is an integral part of the local workforce system. “We have a growing need for skilled workers with certifications in the healthcare, construction, and advanced manufacturing industries throughout Moore and Hoke Counties,” said Nicole. “As an alternative to a two-year degree, we can equip students in a matter of months with the necessary skills for in-demand, obtainable jobs,” said Nicole.

Nicole is also responsible for the Bridge to College and Careers program and the Sandhills’ Working Smart graduate initiative. “Our Bridge program is a collaborative effort between Sandhills and local high schools designed to expose graduating high school students to the many opportunities awaiting them if they choose to attend Sandhills,” she said. “Working Smart is North Carolina’s only soft skills certification and is being offered to all Sandhills’ graduates at no cost to prepare them for success in the workplace.

The Career Development Program in Continuing Education is a workforce development program that provides skills assessment services, employability skills training, and career development counseling to individuals in transition and the emerging workforce.

“Our goal is to assist students in assessing their interests, personality traits, and abilities, in setting career and educational goals,” said Career Development Director Jenny Troyer. “We help them create a pathway that will lead to economic, social, and educational success.

Career Development classes help students explore and plan careers, write resumes, interview with confidence, solve typical workplace problems, communicate effectively, and learn basic computer skills.
Aaron Denton, Athletic Director at Sandhills Community College, has been named the Junior/Community College Under Armour Athletics Director of the Year by the National Association of Collegiate Directors of Athletics.

“This is an incredible honor,” said SCC President John Dempsey, “and it is well-deserved. Aaron has built our athletic program, from scratch, into one of the most successful programs in the country—and he’s done it with dignity, integrity, and a genuine dedication to the mission of Sandhills.”

Just before this announcement, Aaron had accepted an offer to become the Athletic Director at North Carolina Wesleyan University in Rocky Mount. He will supervise 14 athletic teams at Wesleyan.

“Sandhills is about excellence and opportunity and about developing people,” said Dempsey. “While we will miss Aaron terribly, we are very, very proud of him. We wish him only the best as he, his wife Ami, and their family pursue this wonderful opportunity.”

“Sandhills has supported many opportunities for myself, our coaches, and student-athletes,” said Aaron. “Being a part of those efforts remains special for my family and me.”

Aaron came to Sandhills in 2008 from Louisburg College where he had rebuilt the basketball program, placed athletes at four-year universities, and spearheaded fundraising efforts. He had also been an Assistant Coach at Miami-Dade College and UNC-Greensboro.

With Aaron’s hire, the college began offering women’s volleyball, men’s basketball, and men’s and women’s golf. Heins Gymnasium was enlarged in 2015 to accommodate NJCAA basketball play. Before the renovation, games were played at The O’Neal School. Men’s and Women’s Cross Country was added in 2017, finishing in the top ten in the nation their very first year.

The men’s basketball team won the NJCAA National Championship in 2012, and the Men’s Golf team won the title in 2014. All teams have won many District and Regional tournaments and placed in NJCAA National Championships.

In addition to his duties as the Athletic Director at Sandhills, Aaron taught Mathematics. His wife, Ami, attended the college and served as the Student Government Association President. In addition to a bachelor’s degree in education earned from Appalachian State University, Ami obtained an Associate Degree in Nursing from Sandhills and later taught in the nursing department.

The Dentons have two children, nine-year-old Savannah and Noah, four. They will reside near Aaron’s hometown of Bunn, where two happy grandparents await their move.

Curriculum

Sandhills Community College provides a broad range of curriculum offerings for those interested in earning college credit.

Designed for students who want to transfer to a four-year institution or graduate with particular skill sets aimed at immediate employment, our curriculum offerings range from two-year associate degrees to shorter length certificates.

Curriculum classes are open to non-degree-seeking students as well. Many in the community take our curriculum classes for personal enrichment.

You can apply online by clicking “Apply Now” in the upper right-hand corner at sandhills.edu. The application is free, and it should only take 10 to 15 minutes to complete.

Once you have applied, there are a few important steps to complete before you register for classes.

- Apply for financial aid at fafsa.ed.gov.
- Submit all transcripts from other institutions, both high school and college, to include any placement test scores, ACT, or SAT scores (these scores may exempt you from having to take our placement test).
- Take the placement test (if necessary).
- Attend your scheduled orientation.

For more details regarding the necessary steps for enrolling, visit sandhills.edu/admissions/.

For details regarding the next semester’s curriculum course offerings, simply visit sandhills.edu and click on “Class Schedules” located in the gray box on the homepage.

If you have questions regarding our steps to enrollment or about any of our curriculum programs, please call our Admissions Office at (910) 695-3738.

Sandhills has an “open-door” admission policy. If you are a high school graduate or are 16 or older and hold a high school equivalency certificate or an adult high school diploma, you can take curriculum/college credit courses.

Tips for Applying for Financial Aid

The financial aid application process may be lengthy, so it’s important to begin early. Students must complete the online Free Application for Federal Student Aid (FAFSA) for colleges to determine eligibility. The form is available each October and must be completed annually. Deadlines for the FAFSA form and required documentation submission are set each term: fall semester deadline is in early July, spring semester, in early December, and summer semester is in early May. Check the SCC website, or call the SCC Financial Aid Office for specific dates prior to each semester.

Some students may be asked to complete verification, which requires additional documentation to be provided to the SCC Financial Aid Office. Documents may include tax returns or tax return transcripts, child support information and personal identification. The process may take additional time if outside agencies are asked for information.

Keys to a Smooth Process

- Begin early. The earlier you begin the application process, the more likely your aid will be processed in a timely manner.
- Allow yourself ample time to request and receive all required additional forms.
- Respond promptly to all requests.
- Thoroughly complete all financial aid forms.
- Be patient with the process.

Free Tutoring

Free tutoring is available to students in the Kelly Tutoring Center located in Logan Hall.

One-on-one help from volunteer or peer tutors allow our students to become responsible learners by helping them stay on track, assisting in understanding assignments and offering ways to improve study skills.

Apply Now for Fall 2018 Financial Aid

fafsa.gov

The deadline to receive money in time for fall semester 2018 is July 12.

Summer Semester Curriculum Sessions

Session A: May 22-July 26
Session B: May 22-June 21
Session C: June 26-July 26

Registration for Sessions A and B is now through May 21.
Registration for Session C is now through June 25.
UNIVERSITY STUDIES  
sandhills.edu/universitystudies

Associate in Arts  
Associate in Science  
Associate in Engineering  
Associate in Fine Arts in Visual Arts  
Associate in Fine Arts in Music

Courses that lead to our Associate in Arts, Associate in Engineering, Associate in Fine Arts, and Associate in Science degrees are offered at the freshmen and sophomore levels. Credits earned in our University Studies college transfer courses may be transferred to senior colleges and universities where you can pursue a program of study leading to a baccalaureate degree.

All instructors who teach in our University Studies program hold a master’s degree or higher. Nearly 80% of our courses are taught by full-time instructors.

SCC was the first comprehensive community college in North Carolina to offer a college transfer program. We have transfer agreements with all NC public universities and dozens of private colleges and universities.

- Ryan Book  
  Fine Arts Department Chair, Associate Professor

ARE YOU INTERESTED IN A CAREER IN AGRICULTURE?  
WOULD YOU LIKE TO EARN A BACHELOR’S DEGREE FROM NC STATE?

NC State’s College of Agriculture and Life Sciences (CALS) PackTrac program may be for you.

Take at least 30 transferable credit hours at SCC and you will be guaranteed admission to NCSU for a bachelor’s degree in participating programs (specific criteria must be met.)

NC State advisors Tricia Buddin, Bianca Glaze, and Anne Hubbard may be reached at cals_advising@ncsu.edu or 919-515-2614. SCC Director of Recruiting Ryan Riggan can be contacted at rigganr@sandhills.edu or 910-246-5365.

ARE YOU A MOTIVATED HIGH ACHIEVER?  
WOULD YOU LIKE TO EARN A BACHELOR’S DEGREE FROM UNC-CHAPEL HILL?

The Carolina Student Transfer Excellence Program (C-STEP) may be for you.

Earn an Associate in Arts or Science from SCC and you will be guaranteed admission to UNC-Chapel Hill for a bachelor’s degree (specific criteria must be met.)

APPLICATION DEADLINES

Current High School Seniors: April 1 of Senior Year
SCC Students: Oct. 1 of First Year at SCC

Professor Tim Nocton  
C-STEP Coordinator  
noctont@sandhills.edu
AVIATION
sandhills.edu/aviation

AVIATION
Associate in Applied Science in Aviation Management
Associate in Applied Science in Career Pilot Technology
The Aviation Management and Career Pilot Technology curriculum can prepare you for a variety of aviation and aviation-related careers including the commercial airlines, general aviation, the aerospace industry, the military, unmanned aircraft systems industries, and state and federal aviation organizations.

Successful graduates may earn a commercial pilot certificate with an instrument rating, specialize in aviation management or in unmanned air systems, and may find employment as commercial, corporate, and military pilots,

AUTOMOTIVE TECHNOLOGIES
sandhills.edu/automotive

Our Automotive Systems Technology and Collision Repair and Refinishing programs are taught using a combination of classroom instruction and hands-on application.

Automotive Systems Technology
Associate in Applied Science Diploma
Automotive Management Certificate
C-Tech Certificate
Light Duty Diesels & Emerging Technologies Certificate

The Automotive Systems program will provide you with the technical knowledge and skills required to repair, service, and maintain all types of automobiles.

Collision Repair & Refinishing
Associate in Applied Science Diploma
Fabrication Certificate
Non-Structural Repair Certificate
Paint & Refinishing Certificate
Structural Repair Certificate

Our Collision Repair and Refinishing program can prepare you to apply technical knowledge and skills to repair, reconstruct and finish automobile bodies, fenders, and external features.

Upon successful completion, you will be prepared to take the ASE exams and be ready for full-time, entry-level employment in dealerships and repair shops.

Aviation
Beginning fall semester 2018 we will offer two degrees in aviation to prepare students for a career in Aviation Management or set them on their way to be a pilot.
- Robert Brannum
Aviation Coordinator

Automotive Systems
The field of automotive technologies is challenging, pays well, and has evolved into a high-tech industry. It now requires advanced education to work in the automotive field, and we are here to help you begin your training.
- Charles Proulx
Automotive Technology Instructor
Business Administration

The variety of skills and experiences you can gain in earning a Management & Business Technologies credential will transfer directly to the “real world” in virtually every industry.

- Felita Livingston
  Management & Business Technologies Instructor

**BUSINESS ADMINISTRATION**

sandhills.edu/business

A business education provides one of the most versatile and flexible educational experiences available. The variety of skills and experiences you learn will transfer directly to the “real world” in virtually every industry. A business degree can provide you with a variety of skills including management, marketing, analytical abilities, financial analysis, problem solving, overcoming obstacles, and budgeting.

**Accounting & Finance**

Associate in Applied Science-Accounting
Associate in Applied Science-Finance
Diploma
Certified Bookkeeper Certificate

The Accounting and Finance curriculum is designed to provide you with the knowledge and the skills necessary for employment and growth in the accounting and finance profession. Accountants and finance professionals assemble and analyze, process, and communicate essential information about financial operations.

Successful graduates should qualify for entry-level accounting and finance positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies.

**Business Administration**

Associate in Applied Science
Banking & Finance Certificate
Entrepreneurship Certificate
Small Business Management Certificate

Business Administration/Hospitality Management Associate in Applied Science

The Business Administration program is designed to introduce you to the various aspects of the free enterprise system. You will be provided with a fundamental knowledge of business functions and processes, and an understanding of business organizations in today’s global economy. Through these skills, you will have a sound business education base for lifelong learning. Successful graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small businesses or industries.

**Health Information Technology**

Associate in Applied Science

The Health Information Technology program is a partner program with Pitt Community College that can provide you with the knowledge and skills to process, analyze, abstract, compile, maintain, manage, and report health information. Graduates may be eligible to write the national certification examination to become a Registered Health Information Technician (RHIT). Employment opportunities include hospitals, rehabilitation facilities, nursing homes, health insurance organizations, outpatient clinics, physicians’ offices, hospice, and mental health facilities.

**Medical Office Administration**

Associate in Applied Science
Associate in Applied Science-Medical Coding & Billing
Associate in Applied Science-Patient Service Rep
Medical Office Coding Certificate

The Medical Office Administration program can prepare you for employment in medical and other healthcare related offices.

Employment opportunities are available in medical and dental offices, hospitals, insurance companies, laboratories, medical supply companies, and other health-care-related organizations.

**Office Administration**

Associate in Applied Science
Associate in Applied Science-Customer Service Rep
Associate in Applied Science-Legal Office
Associate in Applied Science-Office Finance
Associate in Applied Science-Office Software

The Office Administration program can prepare you for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace.

Our successful graduates qualify for employment in a variety of positions in business, government, and industry. Job classifications range from entry-level to supervisor to middle management.
If computer operations, networking or repair are of interest to you, or if you are intrigued by the tasks computers can perform, we have a variety of career pathways.

**Computer Engineering Technology**

- Associate in Applied Science
- Computer Upgrade & Repair Diploma
- Repair Certificate
- Advanced Repair Certificate
- Electronics Certificate
- Forensics Certificate
- Advanced Forensics Certificate
- Networking Certificate
- Security Certificate
- Advanced Security Certificate

Computer Engineering Technology will provide you with the skills required to install, service, and maintain computers, peripherals, networks, and microprocessor and computer-controlled equipment.

**Information Technology-Programming**

- Computer Programming & Development-Database Specialty Associate in Applied Science
- Computer Programming & Development-Mobile App Specialty Associate in Applied Science
- C# Programming Certificate
- Database Programming Certificate
- Mobile App Programming Certificate
- Visual Basic Programming Certificate
- Web Programming Certificate

**Information Technology-Networking**

- Associate in Applied Science
- Diploma
- Security Diploma
- Virtualization Diploma
- Virtualization Certificate
- Cisco Certificate
- Forensics Certificate
- Security Certificate

Our Information Technology sector has two tracks. The Programming and Development pathway can help you find entry-level employment as a database or mobile app specialist, or in C#, database, mobile app, or visual basic programming. We also offer a Networking track which includes security, virtualization, Cisco, and forensics.

**Digital Media Technology**

- Associate in Applied Science Certificate
- Print Design Certificate
- Web Content Management Certificate
- Web Design Certificate

If digital design and multimedia are of interest to you, our Digital Media Technology program can prepare you for a rewarding career. We also offer options in print design, web content, and web design.

**Simulation and Game Development**

- Associate in Applied Science Certificate

For a broad background in computer simulation and game development, our program is both creative and visual, yet utilizes cutting-edge technology.
COSMETOLOGY
sandhills.edu/cosmetology

Cosmetology
Associate in Applied Science
Diploma
Certificate

Our Cosmetology program will provide you with the knowledge, principles, and fundamentals associated with the beauty industry.

We instruct a simulated salon environment and offer services to the local community which will help develop your manipulative and personal skills.

The North Carolina State Board of Cosmetology allows us to offer an internship opportunity to students who qualify. In addition to regularly scheduled classes, students can complete 10 percent of their education in an approved salon.

When you finish our program, you will be qualified to sit for the State Board of Cosmetic Arts exam. Our graduates have a very high passage rate on this exam. By successfully passing it, you will be issued a license. You should be able to find employment in beauty salons, either renting a booth or as a salon assistant, or a related business.

- Karen Enloe
Associate Professor

CULINARY ARTS
BAKING & PASTRY ARTS
sandhills.edu/culinary
sandhills.edu/bakingpastry

Culinary Arts
Associate in Applied Science
Certificate
Culinary Arts-Restaurant Management Certificate

Our Culinary Arts program provides specific training required to prepare you to assume a position as a trained culinary professional in a variety of foodservice settings including full-service restaurants, hotels, resorts, clubs, catering operations, contract foodservice, and health care facilities.

Baking & Pastry Arts
Associate in Applied Science
Certificate

Our Baking and Pastry Arts program is designed to provide you with the skills and knowledge required for employment in the baking/pastry industry including restaurants, hotels, independent bakeries/pastry shops, wholesale/retail markets, and high-volume bakeries.

- Deborah Davies
Culinary Arts Instructor
ENGINEERING TECHNOLOGY
sandhills.edu/engineering

Our Engineering Technology programs have transfer arrangements with UNC-Charlotte and NC A&T whereby students can take the first two years of a degree program at Sandhills and transfer all credits into Bachelor of Science programs.

Architectural Technology
Associate in Applied Science Certificate
We will prepare you to assist architects, engineers, and construction professionals in developing plans and related documentation for projects.

Civil Engineering Technology
Associate in Applied Science Certificate
We will prepare you to use basic engineering principles and technical skills to carry out planning, documenting and supervising tasks in sustainable land development and public works and facilities projects.

Geomatics Technology
Associate in Applied Science Certificate
We will prepare you for the delineation, determination, planning and positioning of land tracts, boundaries, contours and features applying principles of route surveying, construction surveying, photogrammetry, mapping, global positioning systems, geographical information systems, and other kinds of property description and measurement to create related maps, charts and reports.

GOLF COURSE MANAGEMENT
sandhills.edu/golfturf

Golf Course Management
Associate in Applied Science
For over twenty years, we have been preparing students for a career managing the operations of golf courses.

With us, you can learn turf grass science and management, course design, grounds equipment operation, pest control, and grounds management.

Curriculum classes are open to non-degree seeking students — many in the community take our curriculum classes for personal enrichment.

Golf Course Management
Because of our small class size, we are able to provide a great deal of personal attention to our students.

- Bill Patton
Golf Course Management Instructor
LANDSCAPE GARDENING
sandhills.edu/landscapegrd

Landscape Gardening
Associate in Applied Science Certificate

Our Landscape Gardening program can prepare you to construct, manage and maintain indoor and/or outdoor ornamental and recreational plants and related conceptual designs established by landscape architects, interior designers, enterprise owners or managers and individual clients.

Curriculum classes are open to non-degree seeking students — many in the community take our curriculum classes for personal enrichment.

Our graduates have found employment in a variety of positions associated with nurseries, garden centers, greenhouses, landscape operations, government agencies/parks, golf courses, sports complexes, highway vegetation, turf maintenance companies, and private and public gardens.

Graduates are prepared to take the North Carolina Pesticide Applicator’s Examination and the North Carolina Certified Plant Professional Examination.

- Johanna Westmen
Associate Professor

NURSING
sandhills.edu/nursing

NURSING
Associate Degree in Nursing

Our Associate Degree Nursing (ADN) curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care.

Graduates of our program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN) and we have a very high passage rate. Employment opportunities are vast within the global health care system.

Our program is approved by the North Carolina Board of Nursing.

There are three stages for admission to the nursing program with very specific tasks to accomplish and milestones to meet to advance to the next stage.

Earning an ADN at SCC can move you into earning a Bachelor of Science Degree in Nursing (BSN) at North Carolina universities.

We offer the RIBN program which is a partnership between Sandhills Community College and UNC-Pembroke that utilizes a dual enrollment and four-year shared curriculum pathway for you to achieve a BSN at the beginning of your nursing career.

- Joanne Kulka
Associate Professor
Emergency Medical Science
Associate in Applied Science Diploma
Advanced EMT Certificate

The Emergency Medical Science program is designed to prepare you to enter the workforce as a paramedic. Employment opportunities include ambulance services, fire and rescue agencies, air medical services, specialty areas of hospitals, industry, educational institutions and government agencies.

Health and Fitness Science
Associate in Applied Science Certificate

Our Health and Fitness Science program is designed to provide you with the knowledge and skills necessary for employment in the fitness and exercise industry. Successful graduates qualify for employment opportunities in commercial fitness clubs, YMCA's/YWCA's, wellness programs in business and industry, Parks and Recreation Departments and other organizations implementing exercise and fitness programs.

Medical Laboratory Technology
Associate in Applied Science

Our Medical Laboratory Technology program will prepare you to perform clinical laboratory procedures that are used in the maintenance of health and diagnosis and treatment of disease. Employment opportunities include laboratories in hospitals, medical offices, industry and research facilities.

Nurse Aide Certificate

Our Nurse Aide program will prepare you to work under the supervision of licensed nursing professionals in performing nursing care and services for persons of all ages. Upon completion, you may be eligible for listing as a Nurse Aide I and other selected Nurse Aide registries as determined by the local program of study.

Ophthalmic Medical Assistant Diploma

The Ophthalmic Medical Assistant program prepares you to perform ophthalmic (eye) procedures under the supervision of a licensed physician specializing in Ophthalmology. You will be able to find work in medical institutions, in clinics, or in physician practices.

Polysomnography Associate in Applied Science

Our Polysomnography curriculum will prepare you, working in conjunction with a physician, to perform and interpret sleep studies and to provide comprehensive clinical evaluations that are required for the diagnosis of sleep related disorders. Employment opportunities may be found in hospitals and freestanding sleep centers.

Radiography

Our Radiography program prepares you to be a radiographer, a skilled health care professional who uses radiation to produce images of the human body (X-Rays). You could be employed in hospitals, clinics, physicians’ offices, medical laboratories, government agencies and industry.

Respiratory Therapy Associate in Applied Science

By studying Respiratory Therapy, you will be prepared to work as a respiratory therapist. You will perform diagnostic testing, explore treatments and help manage patients with heart and lung diseases. You will be able to find work in hospitals, clinics, nursing homes, education, industry and home care.

Surgical Technology Associate in Applied Science Diploma

Our Surgical Technology program prepares you to assist in the care of surgical patients in the operating room and to work as a member of the surgical team. Employment opportunities include labor and delivery, emergency departments, inpatient/outpatient surgery centers, dialysis units or facilities, physicians’ offices, and even central supply processing units.

Therapeutic Massage Associate in Applied Science Diploma

Our program will prepare you to work in direct client care settings to provide manipulation, methodical pressure, friction and kneading of the body for maintaining wellness or treating alterations in wellness throughout the lifespan. Employment opportunities include hospitals/rehabilitation centers, health departments, home health, medical offices, nursing homes, spas/health/sports clubs, and private practice.
Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

**Early Childhood Education**

**Associate in Applied Science**
- Licensure
- Non-Licensure

Our Early Childhood Education program will prepare you to work with children from birth through eight in diverse learning environments. Learned theories are combined with practice in actual settings with young children under the supervision of qualified teachers.

Our successful graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Your employment opportunities will include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

**Fire Protection Technology**

**Associate in Applied Science**

The Fire Protection Technology curriculum is designed to provide you with knowledge and skills in the technical, managerial, and leadership areas necessary for advancement within the fire protection community and related firefighting industries, and to provide currently employed firefighters with knowledge and skills often required for promotional consideration.

Our Fire Protection Technology program will prepare you for entry-level positions in institutions and agencies that provide social, community and educational services.

Our successful graduates qualify for positions as substance abuse counselors, DUI counselors, halfway house workers, residential facility employees and substance education specialists.
Why Continuing Education?

Consider these benefits:

- Affordable options for job training.
- Short-term, quality, customized training leading to industry approved credentials.
- Classes offered days, evenings, weekends and online for your convenience.
- Many cultural and personal enrichment offerings in our Center for Creative Living and Lifelong Learning Institute.
- No transcripts required for most offerings.
- Easy to enroll.

Enrolling is Easy

Sign up today using one of these easy steps:

- Call (910) 695-3980 (credit card required); office hours are Monday-Thursday 8-5 pm, Friday 8 am-Noon;

- In person on the first floor of Van Dusen Hall on the Pinehurst campus; office hours are Monday-Thursday 8-5 pm, Friday 8 am-Noon;

- Fax completed registration form, located online and on the final page of the Continuing Education section of this publication, to (910) 692-6998.

Scholarships

Scholarships are available to help remove financial barriers for students seeking new job skills or upgrading current skills.

Apply early and don’t assume you will not qualify. You won’t know unless you apply. Applications must be received no later than one week prior to course start date. Scholarships have specific eligibility and course requirements.

SECU Scholarship recipients from left to right: Breon Davis, Dylan Barber, Maureen Battle, and Khadijah Sanders

To apply or for additional information:
Golden Leaf: Jason Levister at 695-3778 or levisterj@sandhills.edu
SCC Foundation: Amy Caliri at 695-3998 or caliria@sandhills.edu
SECU Scholarships: Jason Levister at 695-3778 or levisterj@sandhills.edu
Youth Summer Enrichment

Sandhills Community College Youth Summer Enrichment Programs are exciting and educational programs for students ages 8-14. Programs are designed to provide fun, hands-on learning activities that promise to develop and build skills, encourage creativity, and fuel a passion for lifelong learning. These programs are sure to become an unforgettable adventure full of inspiring accomplishments, treasured memories, and new friends!

Visit summer.sandhills.edu for complete program information and required forms. Spaces are limited. Register early!

How to Register
Complete the application found at summer.sandhills.edu. Submit the completed application by one of the following methods:
- E-mail: collegeforkids@sandhills.edu
- Mail: College for Kids, Sandhills Community College, 3395 Airport Road, Pinehurst, NC 28374
- Fax: 910-692-6998
- Hand-delivery: SCC Continuing Education Offices on the first floor of Van Dusen Hall

Creative Drama
Join Adam Faw, Pinecrest High School's Performing Arts Department Chair in this interactive class. Focusing on creativity over performance, creative drama is a great first step into acting for novice performers, and a wonderful chance for veteran performers to hone their skills. In creative drama, we will delve into different avenues of storytelling, incorporating the fundamentals of voice and diction training, body awareness and pantomime, all in a safe and welcoming atmosphere.

Ages 10-14
Instructor: A. Faw
Pinecrest High School R.E. Lee Auditorium $123
2024 Jun 18-20 M-Th 1-4pm

Making Your First 3D Video Game!

In this Black Rocket® classic, you will go well beyond the limitations of the traditional 2D game design classes and create an immersive 3D world. Students will learn the physics behind 3D games, explore beginner event scripting, level design, controlling the flow of gameplay, and storytelling. Student created games will be available on a password protected Black Rocket website to share with friends and family. Students will work in pairs or teams for most of the program.

Instructor: J. Patterson
184 Little Hall $138
2003 9am-12pm M-Th Jun 11-14 Ages 8-10
2004 1-4pm M-Th Jun 11-14 Ages 11-14

Backstage: Technical Theatre
Do you enjoy theatre, but shy away from the limelight? Or, are you an actor who wants to learn more about what it takes to pull a production together? Backstage camp will give students the opportunity to get their hands dirty with scenic painting, props and set building, and even playing with our fun color changing stage lights! Make sure to wear clothes you don't mind getting paint on! Ages 10-14
Instructor: A. Faw
Pinecrest High School R.E. Lee Auditorium $123
2026 Jul 9-12 M-Th 1-4pm

Tease the Keys: Piano
Learn to “tease the keys” in this hands-on piano camp. Students learn the As, Bs, and Cs of the piano in this 4-day fun-filled experience.

Ages 8-14
Instructor: J. Lowery
124 Wellard Hall $104
2026 Jul 9-12 M-Th 1-4pm

Equestrian Boots and Bridles
Spend your days at Muddy Creek Farm Riding Center enjoying all things horse! Learn essential safety, basic grooming, horse care, and, of course, riding. When you're not hanging out with the horses, you'll have fun swimming in the pool and doing arts and crafts. Bring a lunch, drinks, and snacks daily. Boots required. ages 8-14
Instructor: C. Younger
Muddy Creek Farm Riding Center, 245 Trails End Rd, Whispering Pines, NC. $328
2024 Jun 25-28 M-Th 9am-1pm
2025 Jul 9-12 M-Th 9am-1pm

Visual Arts, Creative Drama & Musical Theater
These classes are sponsored in part by the Arts Council of Moore County.

Artful Antics
Integrate the elements of art; line, color, texture, shape, space and value. You will create projects for each element through a variety of mediums such as markers, paint, charcoal, watercolors, and oil pastels. Students will have fun while learning the fundamentals of drawing, painting, and “making every mistake a creative opportunity!” Ages 10-14 or rising 6th-9th grade
Instructor: M. Wright
109 Van Dusen Hall $123
2022 Jun 25-28 M-Th 9am-12pm
2023 Jul 9-12 M-Th 9am-12pm

Make Your First 3D Technology
Black Rocket®

Make Your First 3D Technology
Black Rocket®
Minecraft® Designers
If you love the game Minecraft, and always wanted to design your own world, this class is for you! Learn how to create a custom map, the basics of creating 3D models using a new software to design your very own objects, how to build with Redstone and Command blocks, and create custom textures for you to import at home or share with friends. To access their project at home, students must own a PC/MAC version of Minecraft. Tablet, phone, and game console versions of Minecraft are not compatible. Parent email address is required to use 3D modeling software. Students will work in pairs or teams for most of the program.

2021 Jun 25-28 M-Th 8am-4pm
Children ages 11 and under must have an accompanying, registered with payment, parent or guardian to attend these classes with your child. Children 12 and over may attend without an attending parent or guardian. Students who register for both 10 am-Noon and 1-3 pm classes on the same day, may remain in the Russell Dining Room for the hour between classes. They will need to bring an iPad or quiet activity to participate in while they wait for that hour. Supervision for the waiting hour will be provided.

**Kids Pizza**
Let’s make pizza dough together. Learn to prepare your pizza dough and toppings ahead of time. Make bottled pizza sauce on your own. Learn to roll out dough, add toppings, and place in oven. We’ll also learn to make cinnamon sugar dough. Ages 8-14
Instructor: A. Webb
Russell Dining Room, Little Hall
$45

- 2032 Jun 11 M 10am-12pm
- 2033 Jun 11 M 1-3pm

**Harry Potter Desserts**
Learn to make magical treats like Chocolate Frogs with your choice of filling, Pumpkin Pastries, Chocolate Wands, and Crispy Jelly Filled Howlers in this hands-on class.
Instructor: E. Ducker
Russell Dining Room, Little Hall
$45

- 2034 Jun 11 M 10am-12pm
- 2035 Jun 11 M 1-3pm

**Ravioli and Lasagne**
Learn to roll and make your own fresh pasta dough for Ravioli, Wonton Wrappers, and lasagna sheets. Pair will fillings like pepperoni, ricotta, and an easy baked tomato sauce.
Instructor: A. Webb
Russell Dining Room, Little Hall
$45

- 2036 Jun 12 T 10am-12pm
- 2037 Jun 12 T 1-3pm

**Star Wars Sweets**
May the culinary force be with you! Create Lightsaber Pretzels, Oreo Tie Fighters, Darth Vader Peanut Butter Cups, and Storm Trooper Gummies in this hands-on class.
Instructor: E. Ducker
Russell Dining Room, Little Hall
$45

- 2038 Jun 13 W 10am-12pm
- 2039 Jun 13 W 1-3pm

**Easy Peasy Mac and Cheesy**
Make your own customizable mac and cheese. Explore fresh extruded dough. Make your own cheese and tomato sauces with various fillings and toppings.
Instructor: A. Webb
Russell Dining Room, Little Hall
$45

- 2036 Jun 12 T 10am-12pm
- 2052 Jun 26 T 1-3pm

**Kids Cookie Class – Making Doughs and Batters**
Learn to make your own cookie dough rolls in a tube and freeze. Explore the Extruded and Earthquake cookies.
Instructor: A. Webb
Russell Dining Room, Little Hall
$45

- 2038 Jun 13 W 10am-12pm
- 2039 Jun 13 W 1-3pm

**Deceptive Cupcakes**
In this two-hour class, we’ll learn ways to make cupcakes look like deceptive common dishes like corn on the cob, spaghetti and meatballs, fried rice, Chinese takeout and the Lo Mein fortune cookie accented with caramel candy.
Instructor: E. Ducker
Russell Dining Room, Little Hall
$45

- 2038 Jun 13 W 10am-12pm
- 2048 Jun 21 Th 1-3pm

**Kids Cookie Class – Decorating Cookies**
Prepare delectable homemade Oreo cookies with filling and rolled cookies in different shapes, dip in ganache, and top with fondant, sprinkles, and powdered sugar. Prepare ice-cream sandwiches as an added bonus!
Instructor: A. Webb
Russell Dining Room, Little Hall
$45

- 2035 Jun 11 M 1-3pm
- 2046 Jun 20 W 1-3pm

**Kids Cupcake Class – Decorating Day**
In this class learn to prepare fairy cupcakes. Decorate with filling, ganache and buttercream icings, piping, and then embellish with sprinkles and candies.
Instructor: A. Webb
Russell Dining Room, Little Hall
$45

- 2040 Jun 14 Th 10am-12pm

**Deceptive Desserts**
Create deceptive desserts like lollipop sticks, Rice Krispie treats, chocolate-dipped strawberries and pretzels.
Instructor: E. Ducker
Russell Dining Room, Little Hall
$45

- 2037 Jun 12 T 1-3pm
- 2041 Jun 14 Th 1-3pm
- 2054 Jun 27 W 1-3pm

**Kids Cute Desserts**
Kids, learn to help your parents! Using candy molds from the craft store, prepare lollipop sticks, Rice Krispie treats, chocolate-dipped strawberries, and pretzel sticks in this class.
Instructor: E. Ducker
Russell Dining Room, Little Hall
$45

- 2042 Jun 18 M 10am-12pm

**Kids Cupcake Class – Baking Day**
In this class kids learn to bake chocolate cupcakes, cheesecake cupcakes and banana bread.
Instructor: A. Webb
Russell Dining Room, Little Hall
$45

- 2043 Jun 19 T 1-3pm

**Eat the Rainbow, Fun with Colors**
Create colorful fruity krispies and rainbow cake. Make an individual treat by will also learn to bake colored layers for a rainbow cake.
Instructor: E. Ducker
Russell Dining Room, Little Hall
$45

- 2044 Jun 19 T 1-3pm

**Cool Snacks – Fun Snacks for Summer**
Let's make trail mix with granola, snails with caramel, celery, tortilla spirals, fruit rainbow kabob, hot dog spaghetti, and apple doughnuts! YUM!
Instructor: A. Webb
Russell Dining Room, Little Hall
$45

- 2047 Jun 21 Th 10am-12pm

**Cool Snacks – Crescent Roll Day**
Crescent rolls are so versatile. Prepare pepperoni cheese stick roll ups. Use the same rolls to make a sweet treat using apple cinnamon sugar and pecans. We will also use cinnamon rolls to make monkey bread cupcakes.
Instructor: A. Webb
Russell Dining Room, Little Hall
$45

- 2049 Jun 25 M 10am-12pm

**Down and Dirty Desserts**
Getting dirty with potted plant pudding, sandbox pudding, mushroom meringues, homemade gummy worms, dipped strawberry, “carrots” in a Kit Kat flower box!
Instructor: E. Ducker
Russell Dining Room, Little Hall
$45

- 2050 Jun 25 M 1-3pm

**Kids Brownie and Bar Class**
In this class, we’re making both ordinary and cheesecake brownies. We’ll cut out shapes to decorate them and place them on sticks. Let’s dip in ganache and make S’mores bars!
Instructor: A. Webb
Russell Dining Room, Little Hall
$45

- 2051 Jun 26 T 10am-12pm

**Cake Baking Class**
Cakes galore! In this class learn to pre-bake, fill, and ice cake layers. Decorate with colored fondant and modeling chocolate rolled out and then cut into shapes. We’ll make bows, cut out letters, shapes, numbers, and different colors. We will also learn to bake colored layers for a rainbow cake. Make an individual treat by learning to make lava cake in a mug.
Instructor: A. Webb
Russell Dining Room, Little Hall
$45

- 2053 Jun 27 W 10am-12pm
- 2055 Jun 28 Th 1-3pm
The Lifelong Learning Institute offers adults the opportunity to actively engage their minds through a variety of personal enrichment course offerings. Partnerships with various businesses further enhance the offerings of the Lifelong Learning Institute. Those schedules are published as needed in addition to this flightPath edition.

Whether you are looking to challenge yourself with a new skill or deepen your understanding of a particular topic, The Center for Creative Living can help you reach your personal goals in order to achieve a more intellectually rewarding life.

Early registration is encouraged as many courses fill quickly. Call (910) 695-3980 to register today and invite a friend. It’s always more fun to learn something new with someone you know.

The Lifelong Learning Institute

Entremet and Petite Gateaux Production
Join Chef Ducker and Chef Brunner to learn innovative mousse and dessert techniques using creative molds, décor and mirror glazes. Seating is limited.

The Advanced Manufacturing Program offers high-tech, in-demand career training through state-of-the-art equipment designed to meet the growing demand for skilled workers. Through partnerships with local employers, the Advanced Manufacturing Program aligns class offerings and curriculum to provide employers a pipeline of skilled workers with job-specific skills.

Classes prepare students to achieve national certifications from institutes such as the National Center for Construction Education Research (NCCER), Manufacturers’ Skills Standards Council (MSSC), Electronic Technicians’ Association (ETA), and the National Institute for Metalworking Skills (NIMS). Class content focuses on safety and fundamental job skills to prepare students for gainful employment. Job placement assistance and career coaching is offered to students who successfully complete the course.

Opportunities are also available for high school students. Please see your guidance counselor for more information regarding the high school track.

For more information, contact Deneane Smith at (910) 246-4117 or smithl@sandhills.edu.

Classes are held at the Palmer Advanced Manufacturing Center on the Pinehurst Campus and at the Sandhills Hoke Center in Raeford.

Certified Production (CPT) Technician
Designed to train students for high-paying, in-demand jobs in advanced manufacturing, CPT is endorsed as a quality training program for entry-level employment by Unilever HPC and ITG Burlington in Raeford and Coty, Inc. in Sanford. Students learn manufacturing production systems and minor manufacturing equipment maintenance and repair as specified by the Manufacturing Skills Standards Council. Students prepare to complete four MSSC certifications: Safety, Quality Practices and Measurement, Manufacturing Processes and Production, and Maintenance Awareness leading to the comprehensive CPT credential.

MACHINING
Classes Begin August 2018 - Pinehurst Campus
Learn to create and produce precision parts utilizing state-of-the-art industrial equipment.
Skilled machinists are in high demand, and employment opportunities are possible in numerous industries.

Manual Machining II
Advanced Set-Up: Drill Presses, Metal-Cutting Saws, Lathes
Milling Machines, Grinders

CNC Programming
Blueprint Reading and Interpretation
Machinability and chip formation • Calculation of Settings
Use of Tooling Materials • Assembling Components
Basic Semi-precision and Precision Layout

Mechanical Power
Transmission Fundamentals
Level 3
This course introduces the types, functions, and operations of packaging machinery. Topics include filling, labeling, capping, carton forming, conveying, wrapping, and other related topics. Upon successful completion, students should be able to effectively communicate with technicians and engineers on the terms, actions, concepts, and components of packaging machinery. Students will learn about gear drives, hydraulics, pneumatics, pumps and piping, and power transmission accessories; preparing them for well paying positions in advanced manufacturing.

BASIC PROGRAMMABLE LOGIC CONTROLS
Class Begins August 29 - Hoke Center
Second course in a series of three to attain an SCC Automated Technology Certificate.
Learn basic logic operations, the creation of a PLC program, design of complex logic operations, storage function applications, implementation of program flow control, analog processing, and how to solve complex text assignments.
Prerequisites: Basic electronics or basic knowledge of control engineering (basic logical operations, flip-flops, timers, counters, process control, function plans). Basic knowledge of programming with RSLogix 5000 Rockwell Programming Software.

ELECTRICAL
Levels I, II, III, and IV
Classes Begin September 2018 - Pinehurst Campus
Taught by National Center for Construction Education and Research (NCCER) certified trainers and overseen by a master NCCER trainer.
After successful completion of each level, you are qualified to receive the level-appropriate NCCER Electrician Certification, inclusion on the NCCER National Registry for electricians, and can move on to the next level if desired.

WELDING
Classes Begin August 2018 - Pinehurst Campus

Level I
Safety • Metal Cutting • Metal Fitting • Welding Skills

Level II
Physical & Mechanical Properties of Metal
Flux Cored Arc Welding • Interpreting Detailed Welding Drawings

Upon successful completion of each level, you can earn the level-appropriate NCCER Welding Certification.

Advanced Manufacturing
classes fill quickly — register early.
The Public Safety Department works in partnership with multiple accrediting agencies to provide training, certification and recertification, and specialty programs to meet the needs of local public safety agencies. Whether you are seeking a career as a firefighter or are a seasoned veteran in Law Enforcement, EMS, or Fire & Rescue, the Public Safety Department has ongoing course offerings to meet your needs. Engage in experiential learning developing the skills you need to be “Ready to Work and Ready to Respond.” Programs and course offerings are delivered in accordance with state agency requirements and standards.

For additional information, contact Denise Cameron at (910) 695-3944 or camerond@sandhills.edu or Michelle Bauer at (910) 695-3774 or bauerm@sandhills.edu.

## Technical Rescue Academy

This block offering of technical rescue certification courses will prepare you as a technical rescuer to perform the tasks needed for rescue operations. Topics covered include pre-planning, scene size-up, and hazards assessment for incidents involving rope rescue. You will be introduced to applicable standards addressing rope rescue, Personal Protective Equipment accessory gear, rope software, and rope hardware. Classes may be taken as a full block or in individual pieces as needed to complete the Technical Rescue Certification. Please contact Michelle Bauer for individual class schedule.

Application packets available at fireacademy.sandhills.edu or in the Continuing Education offices in Van Dusen Hall.

For more information contact Michelle Bauer at (910) 695-3774 or bauerm@sandhills.edu.
The Career Development Program at Sandhills Community College is a workforce development program that provides skills assessment services, employability skills training, and career development counseling to individuals in transition and the emerging workforce.

Our goal is to assist students in assessing their interests, personality traits, and abilities, in setting career and/or educational goals, and in creating a pathway that will lead to economic, social, and educational success.

Career Development classes are available to all and may be free for qualified students. Students may also be eligible for a Continuing Education scholarship.

Contact Jenny Troyer at (910) 695-3926 or troyerj@sandhills.edu for more information.
Energize Your Interview
Stand out from the crowd and sell yourself. Receive tips for the interview, what to say and how to say it. Identify ten questions that will make or break your interview. Become more confident as you participate in mock interviews.

With ed2go we provide the highest-quality online continuing education courses that are affordable and easy to use for adults. As a virtual online college, our instructor-led online courses are taught by top professionals in their field.

Whether you’re looking for professional development or personal enrichment, these six-week online courses are the perfect way to learn a new skill or enhance your existing ones. You’ll spend roughly two to four hours each week completing two engaging lessons in an enjoyable, interactive learning environment. Expert instructors develop and lead every course, and you’ll be able to interact with them and with fellow students in lively online discussion areas.

New sessions start every month, so you can sign up anytime. Upon completing a course with a passing score, you’ll get an award of completion.

For additional information, contact Lori Degre at (910) 695-3939 or degrel@sandhills.edu.

Ed2Go Online courses start every 6 weeks:
May 16, June 13, July 18 and August 15
Ed2Go Online
Courses are only $75 each unless otherwise indicated.
With our ed2go Career Training programs, you can prepare for a nationally recognized certification in as little as six months. Our instructor-led programs will meet the needs of your busy lifestyle with an entirely online venue, self-paced programs and 24/7 access.

Military tuition assistance, student loans and government funding may be available. For complete information, go to: http://www.ed2go.com/career/financial-assistance.

We offer more than 100 courses. Visit http://careertraining.ed2go.com/sandhillscc/ to view course descriptions, tuition and registration information, or contact Lori Degre at 910-695-3939 or degrel@sandhills.edu.

### Benefits of Online Career Training

- **Learn In-demand Job Skills**
- **Begin Anytime**

The mission of the Small Business Center at Sandhills Community College is to increase the success rate and numbers of viable small businesses in North Carolina by providing high quality, readily accessible assistance to prospective and existing small business owners leading to job creation and retention.

The NC Community College’s Small Business Center Network (SBCN) assists in starting an average of 700 businesses each year. Small Business Centers have an economic impact in 90% of NC counties annually, helping to create and retain nearly 3,800 jobs.

FREE Seminars, Resources & Counseling

The Small Business Center is located at the Dedman Center for Business Leadership in 101 Van Dusen Hall. The center offers free seminars targeted to the needs of small business owners and startups. To register for a free seminar, visit sbc.sandhills.edu.

For free one-on-one counseling and information about starting a business or about specific business needs, call Teresa Reynolds at (910) 695-3938 or email reynoldst@sandhills.edu.

WEBINAR SERIES

Don’t miss our Summer Webinar Series. All webinars will be presented LIVE on the date and at the time listed for each. Register by visiting sbc.sandhills.edu. Before the seminar begins, you’ll receive a reminder with the link to access the webinar. You’ll be able to view the webinar on your own device from anywhere you have Internet access.

Fueling Your Business

Webinar designed to help small business owners and prospective entrepreneurs understand how to access credit and capital for their businesses. It will review the six basic principles many leaders use to make credit decisions and provide an overview of the resources available to North Carolina for small businesses. Finally, the webinar will cover the Rural Center’s Microenterprise Loan Program and provide details about its lending criteria and application process.

Facilitator: JaLisha Richmond, NC Rural Center
Free  Jun 19  T  10:30-11:30am

SBA Alternative Capital Programs for Every Small Business

Webinar designed with discussion points include personal and professional credit; the business plan; managing cash flow; business accounting; collateral requirements; the commercial loan process; and a discussion of small business lending programs available with the U.S. Small Business Administration. Much of small business lending is not through a bank. This key topic on “alternative lenders and brokers” provides you access to capital when your bank does not.

Facilitator: Don Spry, SBA
Free  Jun 26  T  10:30-11:30am

Three ways to register for Small Business Center seminars:

sbc.sandhills.edu
(910) 695-3938
reynoldst@sandhills.edu
Doing Business with the Federal Government: Contracting 101
Webinar is an introduction to doing business with the federal government. Topics include: levels of federal purchasing - how the federal government buys products, construction and engineering and non-personal services; marketing a business to the federal government; socio-economic small business programs; registering as a federal contractor; locating, identifying and responding to federal business opportunities; and resources available to assist federal contractors in North Carolina.
Facilitator: Joseph Tew
Free  Jul 10  T  11am-12pm

_financing your business
This webinar will highlight the funding and requirements of the programs of the CSBDE, a certified CDFI, community development fi nancial institutions.
Facilitator: Greg Taylor, CSBDF
Free  Aug 7  T  11am-12pm

Small Business Technology Development Centers: Your State Business Resource
The SBTDC provides management counseling and educational services to small and mid-sized businesses. The services are free of charge, and all are confidential. By providing entrepreneurs with the tools they need to build and grow successful businesses, the SBTDC positively impacts NC’s economy. Learn how you can take advantage of this state resource via this webinar.
Facilitator: Ron Duffer, SBTDC
Free  Aug 14  T  11am-12pm

Veteran Entrepreneurship Programs by the SBA
In this webinar, the SBA provides veteran entrepreneurs with key benefits they may be eligible for when starting or growing their small business. Veterans can gain startup or working capital for expansions and acquisitions or to purchase and occupy commercial real estate property. SBA also provides opportunities for service disabled veterans seeking contracting opportunities with the federal government.
Facilitator: Don Spry
Free  Jul 17  T  11am-12pm

Bringing Tomorrow to Sandhills
It was both the professional and recent educational experience of Ed Frick that ignited his desire to assist with the funding of a robust renovation of the Technology Labs located in Van Dusen Hall.

The Labs are primarily used for Continuing Education programs and other training.

Recently, Ed took a Technology Training class and saw first-hand the added instructional value that dynamic surroundings could offer.

“I want these labs to have a “wow factor,” said Ed. “Students should learn in an environment that is state-of-the-art, one that makes those attending feel like they are receiving training that will take them into the next century.”

Infl uenced by the works of Steve Jobs, Ed’s desire is for the Labs to have a cutting-edge design. “This project will impact community members of all ages, from youth in summer camps to senior citizens learning technology for the first time, from budding entrepreneurs to industry employees needing to brush up on skills.”

“There will be a maximum return on Ed’s generosity,” said Andi Korte, vice president of Continuing Education and Workforce Development.

Woven in his passion for the project is a mixture of sales, technological, leadership, and entrepreneurial expertise. Ed served as a systems engineer and marketing representative for IBM. During that tenure, he designed and installed IBM’s first worldwide online banking system and their fi rst banking computer network.

Additionally, Ed received a Master’s in Business Administration from Harvard University and served in the U.S. Army as a paratrooper. He also won the light heavyweight Golden Gloves Championship, apropos with one of his favorite quotes, “Don’t confuse effort with results.”

Plans for the Technology Lab remodel are underway and currently scheduled to complete in the fall of this year.

“We look forward to launching this new environment and presenting it to our community. We are grateful that Ed saw a need and responded. It’s people like Ed that make ours the premier community college in the state, if not the nation.” said Andi.

For summer classes offered in Technology Training, see page 26.
